**GOVERNMENT DEFENDANTS’
 NOTICE OF MOTION AND
 MOTION TO DISMISS AND
 FOR SUMMARY JUDGMENT;
 OPPOSITION TO PLAINTIFFS’
 MOTION FOR PARTIAL
 SUMMARY JUDGMENT**

Date: November 2, 2012
 Time: 9:00 a.m.
 Courtroom: 11 – 19th Floor
 Judge Jeffrey S. White

NOTICE OF MOTION

1
2 PLEASE TAKE NOTICE that, on November 2, 2012 at 9:00 a.m, before Judge Jeffrey S.
3 White, Defendants NATIONAL SECURITY AGENCY; KEITH B. ALEXANDER, Director of
4 the NSA, in his official capacity; the UNITED STATES OF AMERICA; BARACK OBAMA,
5 President of the United States, in his official capacity; DEPARTMENT OF JUSTICE ; ERIC
6 HOLDER, the Attorney General, in his official capacity; and JAMES R. CLAPPER, Director of
7 National Intelligence, in his official capacity (hereafter the “Government Defendants”) will move
8 to dismiss the claims in the Complaint pursuant to Rule 12(b)(1) of the Federal Rules of Civil
9 Procedure and will also seek summary judgment as to all claims against all defendants pursuant
10 to Rule 56 of the Federal Rules of Civil Procedure. The grounds for this motion are as follows:
11

12 1. The Court lacks subject matter jurisdiction with respect to plaintiffs’ statutory
13 claims against the Government Defendants sued because Congress has not waived sovereign
14 immunity as to these claims and the relief sought is not otherwise available as a matter of law
15 against the Government Defendants.
16

17 2. Plaintiffs’ claims against all defendants (including the individual capacity
18 defendants) should be dismissed on the ground that litigation of plaintiffs’ claims would risk or
19 require the disclosure of certain information that is properly protected by statutory protections
20 and the state secrets privilege asserted in this action by the Director of National Intelligence and
21 by the National Security Agency.
22

23 The grounds for this motion are set forth in the accompanying (i) Memorandum of Points
24 and Authorities in Support of the Government Defendants’ Motion to Dismiss and for Summary
25 Judgment; Opposition to Plaintiffs’ Motion for Partial Summary Judgment; (ii) Public
26 Declaration of James R. Clapper, Director of National Intelligence (hereafter “Public DNI
27 Decl.”); (iii) Public Declaration of Frances Fleisch, National Security Agency (hereafter “Public
28

1 NSA Decl.”). Additional grounds for these motions are also set forth in the (iv) Classified State
2 Secrets Privilege Declaration of James R. Clapper, Director of National Intelligence; and the (v)
3 Classified Declaration of Frances Fleisch, National Security Agency. These classified materials
4 have been lodged with the court security officer and are available upon request solely for the
5 Court’s *in camera*, *ex parte* review.
6

7 September 12, 2012

Respectfully Submitted,

8 STUART F. DELERY

TABLE OF CONTENTS

1

2 INTRODUCTION 1

3 BACKGROUND 3

4 ARGUMENT 5

5 I. Congress Has Not Waived Sovereign Immunity For Plaintiffs’ Statutory Claims
For Damages. 5

6 II. Congress Has Not Waived Sovereign Immunity For Plaintiffs’ Statutory Claims
For Equitable Relief. 10

7 III. The State Secrets Privilege Bars This Case From Proceeding. 14

8 A. The State Secrets Privilege. 15

9 1. Procedural Requirements 17

10 2. The Court’s Independent Evaluation of the Privilege
Claim 17

11 3. Impact of Privilege Assertion on the Case 18

12 4. The Attorney General’s Policy 19

13 B. Plaintiffs’ Allegations of Dragnet Surveillance Program
Cannot Be Litigated Without Information Over Which The United States
14 Has Properly Asserted The State Secrets Privilege. 20

15 IV. Plaintiffs’ Motion For Partial Summary Judgment Should Be
16 Denied Because Litigation Of Plaintiffs’ Claims May Not Proceed
Under FISA. 28

17 A. Congress May Not Displace the Common Law Without a
Clear Statement Addressing the Particular Question. 29

18 B. Congress’ “Comprehensive” Regulation Of Foreign Intelligence
19 Surveillance Does Not Displace The State
Secrets Privilege. 32

20 C. The Text of Subsection 1806(f) Does Not Displace the State Secrets
21 Privilege or Permit Discovery Into Whether A Person Has Been Subject to
Alleged Surveillance. 33

22 D. Legislative History Supports the Conclusion that
23 Subsection 1806(f) Does Not Displace the State Secrets Privilege or
Permit Discovery Into Whether Alleged Surveillance Has Occurred. 38

24 E. Judicial Authority Supports the Conclusion that Subsection 1806(f) Does
25 Not Displace the State Secrets Privilege
or Permit Discovery Into Whether Alleged Surveillance
26 Has Occurred. 42

27 F. Application of Subsection 1806(f) in this Case Would Itself Risk
28 Disclosure of Properly Protected Information. 45

INTRODUCTION

1
2
3 Plaintiffs in this action allege that, following the 9/11 attacks, then-President George W.
4 Bush authorized the National Security Agency (NSA) to undertake indiscriminate warrantless
5 surveillance of domestic communications with the assistance of major telecommunications
6 companies, and that this alleged “dragnet” surveillance encompassed both the collection of the
7 content of telephone and Internet communications as well the communication records of millions
8 of Americans. *See* Complaint ¶ 1, 7; *see also id.* ¶¶ 9-11; 73-75; 82-97. Plaintiffs claim that the
9 alleged warrantless surveillance violates the First and Fourth Amendments of the United States
10 Constitution, and the separation of powers doctrine, as well as various statutory provisions.
11 Plaintiffs also claim the alleged warrantless surveillance authorized by the President after 9/11
12 remains ongoing today, and they seek prospective declaratory and injunctive relief to halt such
13 alleged surveillance, as well as damages against the United States and numerous former
14 government officials.

15
16 In April 2009, the Director of National Intelligence (“DNI”), supported by the NSA,
17 asserted the state secrets privilege and related statutory protections in this action in order to
18 protect against the disclosure of highly sensitive intelligence sources and methods, and the
19 Government sought dismissal on that basis. However, in 2010, the district court dismissed the
20 case on grounds not advanced by the Government—that plaintiffs had failed to sufficiently
21 allege a personal injury in their complaint—and did not consider the Government’s state secrets
22 privilege assertion. *See Jewel v. National Security Agency*, 2010 WL 235075 (N.D. Cal. 2010).
23 The Ninth Circuit reversed and remanded this case in 2011 with instructions that the Court now
24 consider, among other claims and defenses, whether “the government’s assertion that the state
25 secrets privilege bars this litigation.” *See Jewel v. National Security Agency*, 673 F.3d 902, 913-
26 14 (9th Cir. 2011). Accordingly, the DNI and NSA have renewed the Government’s privilege
27
28

1 assertion in this case and again demonstrate why the disclosure of sensitive intelligence sources
2 and methods at issue in this case reasonably could be expected to cause exceptionally grave harm
3 to national security and why, as a result, this action should be dismissed. The Government’s
4 privilege assertion has been reviewed and approved pursuant to the Attorney General’s 2009
5 policy concerning the defense of state secrets privilege assertions by the Department of Justice.
6
7 *See infra.*

8 The information over which the DNI has asserted privilege is not at the periphery of this
9 case. The very purpose of this litigation is to put at issue whether the NSA undertook certain
10 alleged activities under presidential authorization after 9/11, and whether those activities
11 continue today. At every stage, from standing to the merits, highly classified and properly
12 privileged intelligence sources and methods are at risk of disclosure. The law is clear, however,
13 that where litigation risks or requires the disclosure of information that reasonably could be
14 expected to harm national security, dismissal is required. *Mohamed v. Jeppesen Dataplan, Inc.*,
15 614 F.3d 1070, 1079 (9th Cir. 2010).
16

17 Plaintiffs’ principle defense to the privilege assertion is that provisions of the Foreign
18 Intelligence Surveillance Act (FISA) have “displaced” the privilege and establish a framework
19 for litigation of their claims on the merits. In July 2012, plaintiffs filed a motion for partial
20 summary judgment on this basis.¹ Plaintiffs’ contention is meritless and their motion should be
21 denied. The FISA procedures cited by plaintiffs are directed at a different circumstance—the use
22 of surveillance evidence in a proceeding against an “aggrieved person”—and do not permit a
23 person merely alleging he or she was subject to surveillance to seek discovery into whether
24

25
26
27 ¹ See Plaintiffs’ Motion for Partial Summary Judgment Rejecting the Government Defendants’ State Secret
28 Defense (Dkt. 83) (hereafter “Pls. Mem.”).

1 surveillance has occurred.

2 Before reaching the state secrets privilege question, the Court should narrow the claims
3 for which consideration of the privilege assertion would be necessary by dismissing plaintiffs'
4 statutory claims against the United States and official capacity defendants on the ground that the
5 statutory causes of action at issue do not unambiguously waive sovereign immunity for the
6 specific claims raised against the Government.
7

8 **BACKGROUND**

9 In December 2005, in response to media reports, then-President Bush acknowledged the
10 existence of a program he authorized after the 9/11 attacks under which the NSA intercepted
11 certain international communications to or from the United States reasonably believed to involve
12 a member or agent of al Qaeda—later referred to as the “Terrorist Surveillance Program”
13 (“TSP”). *See In re National Security Agency Telecommunications Records Litigation*, 671 F.3d
14 881, 891 (9th Cir. 2011) (cert. petition pending). Other allegations arose at the time that the
15 NSA had engaged in broader surveillance activities under presidential authorization, including
16 the collection of communication records. *See id.*

17 Starting in early 2006, numerous lawsuits were filed across the United States challenging
18 these alleged activities, primarily against telecommunications carriers alleged to have assisted
19 the Government, but also including some lawsuits against Government agencies and officials. In
20 this district, the first case filed was *Hepting v. AT&T* (06-cv-00673-VRW)—a lawsuit against
21 AT&T alleging that it had assisted the Government in alleged intelligence activities. Thereafter,
22 over forty other class action suits against other telecommunications carriers and Government
23 agencies and officials were transferred to this district by the Judicial Panel on Multidistrict
24 Litigation (JPML) and assigned to former Chief Judge Walker under docket number M:06-cv-
25 1791-VRW. *See In re NSA*, 671 F.3d at 891.

26 In July 2008, Congress enacted the Foreign Intelligence Surveillance Act Amendments
27 Act of 2008 (“FAA”) which, *inter alia*, foreclosed a cause of action against telecommunications
28 carriers alleged to have assisted the United States Intelligence Community. *See* Pub.L. No. 110-

1 261, 122 Stat. 2435, codified at 50 U.S.C. §1885a. Shortly thereafter, the same plaintiffs who
2 had filed the *Hepting* action filed the instant *Jewel* action, which raised identical factual
3 allegations of alleged warrantless surveillance activities but, in this instance, raised claims solely
4 against U.S. Government agencies and officials in both their official and personal capacities.²

5 In prior proceedings, Judge Walker did not consider the Government’s state secrets
6 privilege assertion but, as noted, dismissed this action (and another action pending in MDL 1791
7 that raised similar allegations—*Shubert v. Obama* (07-cv-00693)) for lack of standing on the
8 ground that plaintiffs had failed to sufficiently allege a personal injury. *See* Dkt. 57; 2010 WL
9 235075 (N.D. Cal. 2010). The Ninth Circuit reversed and remanded both cases in a consolidated
10 order. *See Jewel*, 673 F.2d at 913-14. The Ninth Circuit found that the *Jewel* plaintiffs had
11 alleged a sufficient injury in the complaint to satisfy Article III standing requirements at the
12 pleading stage, but did not find that plaintiffs had established their standing as a factual matter.
13 *See id.* at 908-912. The Court of Appeals noted that the Sixth Circuit, in *ACLU v. NSA*, 493 F.3d
14 644, 648 (6th Cir. 2007), held that the state secrets privilege had foreclosed plaintiffs in that case
15 from proving their standing and observed that the plaintiffs here “may face similar procedural,
16 evidentiary and substantive barriers as the plaintiffs in *ACLU*.” *Jewel*, 673 F.3d at 912.
17 Accordingly, the DNI and NSA now renew their privilege assertion and again demonstrate why
18 properly privileged information is inherently at risk of disclosure, why that privilege assertion
19 forecloses plaintiffs from establishing standing or litigating their claims on the merits, and why
20 as a result this action should be dismissed.
21
22
23
24
25
26

27 ² Lawsuits against telecommunication carriers, including *Hepting*, were subsequently dismissed pursuant
28 to the FAA and that dismissal was upheld by the Ninth Circuit. *See In re NSA*, 671 F.3d 881 (9th Cir. 2011).

ARGUMENT**I. CONGRESS HAS NOT WAIVED SOVEREIGN IMMUNITY FOR PLAINTIFFS' STATUTORY CLAIMS FOR DAMAGES.**

Before reaching the state secrets privilege issues, the Court should first narrow the scope of this case by dismissing plaintiffs' statutory claims for money damages against the Government Defendants sued in their official capacity, whether under FISA, 50 U.S.C. §§ 1809, 1810, the Wiretap Act, Electronic Communications Privacy Act ("ECPA"), or the Stored Communications Act ("SCA"). See 18 U.S.C. § 2511(1)(a), (1)(c), (1)(d); § 2703(a), (b) and (c). All of these claims fail for the threshold reason that Congress has not waived sovereign immunity for these claims. "Sovereign immunity is a limitation on the district court's subject matter jurisdiction." *Al-Haramain Islamic Foundation, Inc. v. Obama*, --F.3d --, 2012 WL 3186088, at * 3 n. 2 (9th Cir. Aug. 7, 2012) (quoting *Adam v. Norton*, 636 F.3d 1190, 1192 n. 2 (9th Cir. 2011)).

"Absent a waiver, sovereign immunity shields the Federal Government and its agencies from suit." *Dep't of the Army v. Blue Fox, Inc.*, 525 U.S. 255, 260 (1999) (quoting *FDIC v. Meyer*, 510 U.S. 471, 475 (1994)). Plaintiffs bear the burden of establishing such a waiver. See *Prescott v. United States*, 973 F.2d 696, 701 (9th Cir. 1992).

In sum, plaintiffs' FISA damages claims cannot proceed against the United States under § 1810. Nor do plaintiffs' claims that the government unlawfully surveilled them fit within the specific claims for which Congress waived sovereign immunity in 18 U.S.C. § 2712, which all involve the use and disclosure of information. Section 2712 permits actions against the United States to recover money damages for willful violations of sections 1806(a), 1825(a), and 1845(a) of FISA, and of the Wiretap Act and the ECPA. All three FISA provisions relate to the use and

1 disclosure of information obtained under FISA, not the mere collection of it.³ As the Ninth
2 Circuit recognized in *Al-Haramain*, “[u]nder this scheme, Al-Haramain can bring a suit for
3 damages against the United States for *use* of the collected information, but cannot bring suit
4 against the government for collection of the information itself.” 2012 WL 3186088, at * 5
5 (emphasis in original).

6
7 “A waiver of sovereign immunity cannot be implied but must be unequivocally
8 expressed.” *Al-Haramain*, 2012 WL 3186088, at * 3 (quoting *United States v. Mitchell*, 445
9 U.S. 535, 538 (1980)). Any ambiguity is construed in favor of immunity, and “[a]mbiguity
10 exists if there is a plausible interpretation of the statute that would not authorize money damages
11 against the Government.” *FAA v. Cooper*, 132 S. Ct. 1441, 1448 (2012). Any ambiguity in the
12 scope of a waiver of sovereign immunity is likewise construed in favor of immunity: the scope
13 of Congress’ waiver must “be clearly discernible from the statutory text in light of traditional
14 interpretive tools. If it is not, then we take the interpretation most favorable to the
15 Government.” *Al-Haramain*, 2012 WL 3186088, at * 3 (quoting *Cooper*, 132 S. Ct. at 1448).
16 Plaintiffs rely on 50 U.S.C. § 1810 as their purported source of a waiver of sovereign immunity
17
18
19

20
21 ³ Subsection 1806(a) provides that “[i]nformation acquired from an electronic surveillance conducted
22 pursuant to this subchapter concerning any United States person may be used and disclosed by Federal officers and
23 employees without the consent of the United States person only in accordance with the minimization procedures
24 required by this subchapter. . . . No information acquired from an electronic surveillance pursuant to this subchapter
25 may be used or disclosed by Federal officers or employees except for lawful purposes.” Similarly, subsection
26 1825(a) provides that “[i]nformation acquired from a physical search conducted pursuant to this subchapter
27 concerning any United States person may be used and disclosed by Federal officers and employees without the
28 consent of the United States person only in accordance with the minimization procedures required by this
subchapter. No information acquired from a physical search pursuant to this subchapter may be used or disclosed by
Federal officers or employees except for lawful purposes.” And subsection 1845(a) provides as well that
“[i]nformation acquired from the use of a pen register or trap and trace device installed pursuant to this subchapter
concerning any United States person may be used and disclosed by Federal officers and employees without the
consent of the United States person only in accordance with the provisions of this section. . . . No information
acquired from a pen register or trap and trace device installed and used pursuant to this subchapter may be used or
disclosed by Federal officers or employees except for lawful purposes.”

1 for their FISA damages claim.⁴ Complaint at ¶ 167. The Ninth Circuit recently squarely rejected
2 this claim in *Al-Haramain* when it held that § 1810 does not waive sovereign immunity. Hewing
3 to the Supreme Court’s command that a waiver of sovereign immunity must be explicit and may
4 not be implied, the Ninth Circuit observed that the statutory definition of “person” did not
5 include the United States. 2012 WL 3186088, at * 4. The court further contrasted the absence of
6 an explicit waiver of sovereign immunity in § 1810 with the presence of one in 18 U.S.C. § 2712,
7 where Congress located an explicit waiver with respect to certain sections of FISA as part of the
8 USA Patriot Act. *Id.* at * 4-5. Section 2712 provides for civil actions against the United States
9 to recover money damages for certain willful violations of FISA, the Wiretap Act, and the
10 Electronic Communications Privacy Act (ECPA), and sets out detailed procedures that must be
11 followed to file a claim against the United States. The court reasoned that “[i]t would be
12 anomalous to the point of absurdity for Congress, on one hand, to carefully and explicitly waive
13 sovereign immunity with respect to certain FISA sections, set out detailed procedures for suits
14 pursuant to that waiver, and then on the other, cavalierly imply a sovereign immunity waiver
15 with respect to § 1810 by rendering liable any ‘person.’” *Id.* at * 6. Finally, the court noted that
16 the predicate for liability under § 1810 is a violation of § 1809, which is a criminal offense.
17 Finding that a government employee in his official capacity (*i.e.*, the United States) could be
18 liable under § 1810 would mean finding that a criminal prosecution could be maintained against
19 an office, rather than an individual, under § 1809, and this would be “unprecedented.” *Id.* at *
20
21
22
23 7.⁵

24
25 ⁴ Section 1810 states: “An aggrieved person, . . . who has been subjected to an electronic surveillance or
26 about whom information obtained by electronic surveillance of such person has been disclosed or used in violation
of section 1809 of this title shall have a cause of action against any person who committed such violation”

27 ⁵ For this reason, plaintiffs’ counts against the Government for violating 50 U.S.C. § 1809 cannot survive.
28 *See* Complaint at Counts V, VI.

1 The Ninth Circuit’s ruling in *Al-Haramain* is supported by a holistic look at the section of
2 the Patriot Act in which 18 U.S.C. § 2712 was enacted. *See United States Nat’l Bank of Oregon*
3 *v. Indep. Ins. Agents of Am., Inc.*, 508 U.S. 439, 455 (1993). In the very same section in which
4 Congress added § 2712 (§ 223 of the Act), it expressly barred suits against the United States for
5 damages and equitable relief based on alleged violations of the Wiretap Act and the ECPA, in
6 both cases by permitting relief only against a person or entity “other than the United States.”
7 Section 223(a)(1), (b)(1) of the Patriot Act of 2001, Pub. L. No. 107-56, 115 Stat. 272.⁶ 18
8 U.S.C. §§ 2520(a), 2707(a). Congress added back liability for willful violations of these two acts
9 and for violations of the three use-and-disclosure provisions of FISA in § 2712 (§ 223(c)(1)).
10 And Congress added the following two similar provisions focused on use and disclosure: (1)
11 “Any willful disclosure or use by an investigative or law enforcement officer or governmental
12 entity of information beyond the extent permitted by [the Wiretap Act] is a violation” of that Act,
13 § 223(a)(3) (codified at 18 U.S.C. 2520(g)); and (2) “Any willful disclosure of a ‘record’ . . .
14 obtained by an investigative or law enforcement officer, or a governmental entity, pursuant to
15 section 2703 of this title . . . that is not a disclosure made in the proper performance of the
16 official functions of the officer or governmental entity making the disclosure, is a violation of
17 [ECPA].” Section 223(b)(3) (codified at 18 U.S.C. 2707(g)). Not surprisingly, § 223 was titled
18 “Civil Liability for Certain Unauthorized Disclosures.” Reading § 223 as a whole, the waiver of
19 sovereign immunity in 18 U.S.C. § 2712 is limited to use-and-disclosure claims, not collection
20 claims, as the Ninth Circuit recognized.
21
22
23

24 The legislative history of § 223 shows that Congress was indeed focused on the
25 disclosure of information obtained from electronic surveillance, not its collection. Section 223
26

27 ⁶ Section 223 of the Patriot Act is submitted herewith as Ex. 1.
28

1 was an amendment proposed by Representative Barney Frank during the consideration of the
2 Patriot Act before the House Committee on the Judiciary. Citing the historical example of leaks
3 by former FBI Director J. Edgar Hoover of information obtained through surveillance about Dr.
4 Martin Luther King, Jr.'s personal life, Representative Frank explained that an individual
5 subjected to such "inappropriate release of information garnered by surveillance" should have
6 the right to "get damages from the Federal Government." He elaborated as follows: "We have
7 got to build into this a bureaucratic departmental incentive to crack down on this kind of leaking,
8 and I think if we are able to ensure people that we have done the maximum to prevent the
9 inappropriate disclosure of this information, there is less concern about [it] being gathered."
10 Administration's Draft Anti-Terrorism Act of 2001: Hearing Before the H. Comm. on the
11 Judiciary, 107th Cong., 1st Sess., at 17 (2001) (attached as Ex. 2).

12
13 In approving Representative Frank's amendment, the House Judiciary Committee
14 described it as providing "increased civil liability for unlawful disclosures of information"
15 obtained by electronic surveillance. See H.R. Rep. No. 107-236 (Part I), at 42 (2001) (attached
16 as Ex. 3). Four years later, when Congress reauthorized 18 U.S.C. § 2712 and other provisions
17 of the Patriot Act, it recognized that § 2712 "[i]ncreases civil liability for unauthorized disclosure
18 of pen trap, wiretap, stored communications or FISA information." H.R. Rep. No. 109-174 (Part
19 I), at 496 (2005) (attached as Ex. 4).

20
21 Plaintiffs allege that the Government unlawfully collected their communications and
22 communications records, not that the Government used or disclosed any information obtained
23 about them in the manner targeted by the Frank Amendment. Accordingly, § 2712 does not
24 provide a waiver of sovereign immunity for their statutory damages claims.⁷

25
26
27
28 ⁷ Plaintiffs allege that telecommunication carriers, working in concert with NSA, disclosed acquired
(cont'd)

1 II. **CONGRESS HAS NOT WAIVED SOVEREIGN IMMUNITY FOR**
 2 **PLAINTIFFS' STATUTORY CLAIMS FOR EQUITABLE RELIEF.**

3 Plaintiffs' statutory claims for declaratory and injunctive relief, presented in Counts V
 4 (under FISA, 50 U.S.C. § 1809), VII (under the Wiretap Act, 18 U.S.C. § 2511), X (under the
 5 ECPA, 18 U.S.C. § 2703(a), (b)), XIII (under the ECPA, 18 U.S.C. § 2703(c)), and XVI (under
 6 the Administrative Procedures Act ("APA"), 5 U.S.C. § 701 *et seq.*), likewise cannot survive
 7 because Congress has not waived the Government's sovereign immunity for them.

8 As noted above, the waiver of sovereign immunity under FISA is contained in 18 U.S.C.
 9 § 2712, but this waiver is only for certain claims and remedies. It waives sovereign immunity
 10 only for money damages, not equitable relief, and is the "exclusive remedy" against the United
 11 States for claims under this section. § 2712(a), (d). Congress provided for equitable relief under
 12 the Wiretap Act and the ECPA, but only as to equitable relief running against a "person or entity,
 13 other than the United States." 18 U.S.C. §§ 2520(a), 2707(a). Thus, neither FISA, nor the
 14 Wiretap Act, nor the ECPA waives sovereign immunity for equitable relief.

15 Section 702 of the APA does not waive sovereign immunity for the claims at issue here.
 16 Although it waives equitable relief for other claims, it contains a significant exception to that
 17 waiver which squarely applies. Section 702 provides, "Nothing herein (1) affects other
 18 limitations on judicial review . . . or (2) confers authority to grant relief if any other statute that
 19 grants consent to suit expressly or impliedly forbids the relief which is sought." This provision

20 information to the Government, not that the Government disclosed the information. *See* Complaint at ¶¶ 9-10, 13,
 21 69-70, 73-84, 90-97. Moreover, nothing in the statutes upon which plaintiffs base their claims creates liability
 22 against the United States for allegations of aiding and abetting disclosures by third parties, and the Supreme Court
 23 has refused to impose such secondary civil liability absent "congressional direction to do so." *Cent. Bank of Denver*
 24 *v. First Interstate Bank of Denver*, 511 U.S. 164, 183 (1994); *see also id.* at 177 ("If . . . Congress intended to
 25 impose aiding and abetting liability, we presume it would have used the words 'aid' and 'abet' in the statutory
 26 text."). The Ninth Circuit has followed *Central Bank of Denver* by refusing to find a private cause of action under
 27 18 U.S.C. § 2702 against those who allegedly aid and abet, or conspire with, electronic communication service
 28 providers in unlawfully disseminating the contents of electronic communications under ECPA. *Freeman v.*
DirectTV, Inc., 457 F.3d 1001, 1004-09 (9th Cir. 2006).

1 makes clear that section 702 was “not intended to permit suit in circumstances where statutes
2 forbid or limit the relief sought. Clause (2) of . . . section 702 contains a second proviso
3 concerned with situations in which Congress has consented to suit and the remedy provided is
4 intended to be the exclusive remedy. For example, in the Court of Claims Act, Congress created
5 a damage remedy for contract claims The measure is intended to foreclose specific
6 performance of government contracts. In terms of the proviso, a statute granting consent to suit,
7 *i.e.*, the Tucker Act, ‘impliedly forbids’ relief other than the remedy provided by the Act.” H.R.
8 Rep. No. 94-1656, p. 12-13 (1976), 1976 WL 14066, * 12-13. *See also Block v. North Dakota ex*
9 *rel. Bd. of University and School Lands*, 461 U.S. 273, 286 n. 22 (1983) (“§ 702 provides no
10 authority to grant relief ‘when Congress has dealt in particularity with a claim and [has] intended
11 a specified remedy to be the exclusive remedy’”) (quoting H.R. Rep. No. 94-1656, p. 13).

12
13
14 Other statutes expressly or impliedly forbid the relief plaintiffs seek for the reasons
15 discussed above. As noted above, other statutes expressly or impliedly forbid the relief plaintiffs
16 seek. In 18 U.S.C. § 2712(a), Congress enacted a statutory scheme in which money damages
17 would be available from the United States only for certain willful violations of FISA, the
18 Wiretap Act, and the ECPA involving the use and disclosure of information, not collection,
19 thereby “impliedly forbid[ding] relief other than the remedy provided.” H.R. Rep. No. 94-1656,
20 1976 WL 14066, * 13. Plus, Congress added that this was to be the exclusive remedy against the
21 United States. *See* § 2712(d). Equitable relief would be available from persons or entities other
22 than the United States for Wiretap Act and ECPA violations. 18 U.S.C. §§ 2520 and 2707
23 expressly forbid equitable relief for Wiretap Act and ECPA violations from the United States.⁸

24
25 The fact that plaintiffs have sued federal officials in their official capacity does not
26

27 ⁸ 50 U.S.C. § 1810 creates a cause of action for certain FISA violations, but not against the United States,
28 *see Al-Haramain*, and only for actual and punitive damages, attorney’s fees and costs (not for equitable relief).

1 change the analysis. Plaintiffs cannot rely on *Larson v. Domestic & Foreign Commerce Corp.*,
2 337 U.S. 682 (1949), as a basis for their claims for equitable relief against the Government. *See*
3 Complaint at ¶¶ 155, 182, 219, and 242. In *Larson*, the Supreme Court held that a suit against a
4 federal official in his official capacity was a suit against the United States and was thus barred by
5 sovereign immunity. *Id.* at 703. The Court noted that “[t]here may be, of course, suits for
6 specific relief against officers of the sovereign which are not suits against the sovereign” and not
7 barred by sovereign immunity. *Id.* at 689. Included in the examples it provided was “where the
8 officer’s powers are limited by statute, his actions beyond those limitations are considered
9 individual and not sovereign actions. The officer is not doing the business which the sovereign
10 has empowered him to do or his is doing it in a way which the sovereign has forbidden. His
11 actions are ultra vires his authority and therefore may be made the object of specific relief.” *Id.*
12 In such cases, “the relief can be granted, without impleading the sovereign, only because of the
13 officer’s lack of delegated power. A claim of error in the exercise of that power is therefore not
14 sufficient.” *Id.* at 690. *See also Dugan v. Rank*, 372 U.S. 609 (1963).

15
16
17 Congress specifically addressed the *Larson* doctrine, however, when it amended section
18 702 of the APA in 1976 by adding the waiver of sovereign immunity it now contains. Congress
19 recognized that actions for declaratory or injunctive relief against a named federal official had
20 been allowed to proceed “on the theory he is exceeding his legal authority. In theory such
21 actions are against the officer and not against the Government for whom he is acting and is a
22 legal fiction developed by the courts to mitigate the injustice caused by strict application of the
23 sovereign immunity doctrine.” H.R. Rep. No. 94-1656, 1976 WL14066 * 5. Courts had applied
24 this complicated legal fiction inconsistently and haphazardly, and Congress amended section 702
25 specifically to address this situation, effectively repealing the *Larson* exception. *Id.* at * 5-10.
26 *See Schnapper v. Foley*, 667 F.2d 102, 108 (D.C. Cir. 1981) (“The clarity and force of the
27
28

1 legislative history leaves this court with no alternative but to conclude that all questions of the
2 amenability of a federal officer to a suit for injunctive relief must be decided with reference to
3 section 702, not *Larson*.”).

4 The Ninth Circuit has explained that while it followed the legal fiction of *Larson* in cases
5 prior to 1976, after 1976 it looks instead to section 702 of the APA, including the exceptions
6 therein, for a waiver of sovereign immunity for equitable relief claims. *E.E.O.C. v. Peabody*
7 *Western Coal Co.*, 610 F.3d 1070, 1085 (9th Cir. 2010); *Presbyterian Church (U.S.A.) v. United*
8 *States*, 870 F.2d 518, 524-26 (9th Cir. 1989). *See also Geyen v. Marsh*, 775 F.2d 1303, 1307
9 (5th Cir. 1985) (“The principal purpose of [the 1976 enactment of § 702’s waiver] was to do
10 away with the . . . [*Larson*] fiction[] surrounding sovereign immunity.”); *Sea-Land Serv., Inc. v.*
11 *Brown*, 600 F.2d 429, 432 (3d Cir. 1979) (observing the 1976 APA amendment “in effect
12 repealed” the *Larson* exception); *but see, e.g., Chamber of Commerce v. Reich*, 74 F.3d 1322,
13 1328-29 (D.C Cir. 1996) (applying the *Larson* analysis after the 1976 amendments).

14 Even if *Larson* retained any vitality in the Ninth Circuit, which it does not, it would be
15 inapplicable here. The named federal officials clearly have statutory authority to conduct
16 electronic surveillance; plaintiffs’ claim is that they violated that authority. *Larson*, 337 U.S. at
17 690. In addition, the effect of the equitable relief plaintiffs seek would run against the United
18 States, preventing *Larson*’s application. *See Pennhurst State School & Hosp. v. Halderman*, 465
19 U.S. 89, 107 (1984). Plaintiffs seek to halt alleged widespread intelligence-gathering activity of
20 the United States, and thus there is no question that plaintiffs seek relief that “would . . . restrain
21 the Government from acting, or . . . compel it to act,” or “interfere with public administration.”
22 *Pennhurst*, 465 U.S. at 102 n. 11 (quoting *Dugan*, 372 U.S. at 620); *see also Hawaii v. Gordon*,
23 373 U.S. 57, 58 (1963). The Ninth Circuit has repeatedly dismissed such *ultra vires* theories.
24 *See Cent. Res. Life of North America Ins. Co. v. Struve*, 852 F.2d 1158, 1159-60, 1161 (9th Cir.
25
26
27
28

1 1988) (holding that “it cannot be seriously maintained” that a suit seeking an injunction ordering
2 a state official to approve the marketing of insurance within the state was not against the
3 sovereign); *Aminoil U.S.A., Inc. v. Cal. State Water Ctrl. Bd.*, 674 F.2d 1227, 1234 (9th Cir.
4 1982) (holding that a suit nominally against a federal official, which sought a determination that
5 the official acted beyond the scope of his statutory authority was, in reality, a suit against the
6 United States that would “preclude the [official] in his official capacity from enforcing the
7 [law].”); *see also Palomar Pomerado Health Sys. v. Belshe*, 180 F.3d 1104, 1108 (9th Cir. 1999)
8 (holding that where plaintiff sought an injunction that would restrain a state from reducing
9 medical payment rates charged by plaintiff, relief would interfere with public administration and
10 was thus barred absent waiver of sovereign immunity).

11
12 For the foregoing reasons, plaintiffs’ statutory claims for declaratory and injunctive relief
13 against the Government, presented in Counts V, VII, X, XIII and XVI, should be dismissed.

14
15 **III. THE STATE SECRETS PRIVILEGE BARS THIS CASE FROM**
16 **PROCEEDING.**

17 Aside from the jurisdictional defects of plaintiffs’ statutory claims against the
18 Government, litigation of any of plaintiffs’ claims in this case would require or risk the
19 disclosure of information properly protected by the Government’s assertion of the state secrets
20 privilege and related statutory privileges. Plaintiffs’ complaint quite clearly seeks disclosure of
21 whether or to what extent the Government may have utilized certain intelligence sources and
22 methods after the 9/11 attacks with the alleged assistance of particular telecommunications
23 providers. It also seeks disclosure of whether any of the alleged activities (if they exist) are
24 ongoing. As set forth below, the DNI, supported by the NSA, has properly asserted the state
25 secrets privilege to protect such information from disclosure in order to prevent exceptionally
26 grave damage to national security. Because the privileged information is central to plaintiffs’
27 claims, all claims against all defendants (including the individual capacity defendants) must be
28

1 dismissed to protect the nation's security.

2 **A. The State Secrets Privilege.**

3 "The Supreme Court has long recognized that in exceptional circumstances courts must
4 act in the interest of the country's national security to prevent disclosure of state secrets, even to
5 the point of dismissing a case entirely." *Mohamed v. Jeppesen Dataplan, Inc.*, 614 F.3d 1070,
6 1077 (9th Cir. 2010) (en banc). The state secrets privilege has two overarching applications---
7 both of which apply here. First, the privilege completely bars litigation of claims premised on
8 state secrets where the very subject matter of the action would require the disclosure of state
9 secrets. *See Tenet v. Doe*, 544 U.S. 1, 8-10 (2005) (barring suit against the Government to
10 enforce covert espionage agreements); *Weinberger v. Catholic Action of Hawaii/Peace*
11 *Education Project*, 454 U.S. 139, 146-47 (1981) (barring suit to compel the Navy to prepare
12 environmental impact statement for facility where Navy allegedly proposed to store nuclear
13 weapons, where, due to national security reasons, the Navy could neither admit nor deny the
14 allegation); *Totten v. United States*, 92 U.S. 105, 107 (1875) (barring suit against the
15 Government for breach of secret agreement to compensate spy).

16
17
18 Second, the state secrets privilege excludes evidence protected by the privilege. *See*
19 *United States v. Reynolds*, 345 U.S. 1 (1953). When the case cannot proceed without the
20 privileged evidence, or when litigating the case to judgment on the merits would present an
21 unacceptable risk of disclosing state secrets, it must be dismissed. *Jeppesen*, 614 F.3d at 1079,
22 1083, 1087-90 (dismissing claims against company that allegedly provided flight planning and
23 other services in support of government's alleged extraordinary rendition program, because
24 litigating case would present unacceptable risk of disclosing state secrets). *See also General*
25 *Dynamics Corp. v. United States*, 131 S. Ct. 1900, 1907 (2011) ("Where liability depends upon
26 the validity of a plausible . . . defense, and when full litigation of that defense would inevitably
27
28

1 lead to the disclosure of state secrets, neither party can obtain judicial relief.”) (internal quotation
2 and citation omitted).

3 There is no rigid dichotomy between a *Totten* and *Reynolds* dismissal. The Ninth Circuit
4 has observed that “a bright line does not always separate the subject matter of the lawsuit from
5 the information necessary to establish a prima facie case.” *Al-Haramain Islamic Foundation, Inc.*
6 *v. Bush*, 507 F.3d 1190, 1205 (9th Cir. 2007). In some cases, “there may be no dividing line”
7 while, in other cases, “the suit itself may not be barred because of its subject matter and yet
8 ultimately, the state secrets privilege may nonetheless preclude the case from proceeding to the
9 merits.” *Id.* (describing “continuum of analysis”). Dismissal is required where “the claims and
10 possible defenses are so infused with state secrets that the risk of disclosing them is both
11 apparent and inevitable.” *Jeppesen*, 614 F.3d at 1089. “Dismissal under these circumstances,
12 like dismissal under the *Totten* bar, reflects the general principle” that public policy forbids the
13 maintenance of any suit that would inevitably lead to the disclosure of national security
14 information. *See id.*⁹
15
16

17
18 ⁹ Plaintiffs suggest that the Supreme Court, in *General Dynamics*, “effectively overruled” the Ninth
19 Circuit’s holding in *Jeppesen* that the state secrets privilege requires dismissal when there is an unacceptable risk
20 that state secrets will be disclosed, or when the very subject matter of the action would require the disclosure of state
21 secrets. *See* Pls. Mem. at 11. Plaintiffs misread *General Dynamics*, which is a narrow decision that involved
22 consideration of the use of the privilege “only where it precludes a valid defense in Government-contracting
23 disputes.” *See* 131 S.Ct. at 1910; *see also id.* at 1909 (the rule announced applies only to the superior knowledge
24 defense” in government contracting disputes). Because a classified contractor relationship was at issue, the court
25 looked principally to the *Totten* doctrine to decide the case and ultimately decided to “leave the parties where it
26 found them.” *See id.* at 1906-09. Also, the fact that *General Dynamics* was resolved with reference to “common-
27 law authority to fashion contractual remedies in Government-contracting disputes,” *id.* at 1906, does not mean it
28 restricted application of the state secrets privilege to that type of case, and it certainly did not “overrule” *Jeppesen*.
Plaintiffs’ argument is merely another attempt to limit the reach of the state secrets privilege to the causes of action
in which it has been litigated, but courts have repeatedly rejected this cramped reading of the privilege. *Tenet*, 544
U.S. at 8 (rejecting argument that *Totten* applies only to breach-of-contract claims); *id.* (“[P]ublic policy forbids the
maintenance of *any suit* in a court of justice, the trial of which would inevitably lead to the disclosure of matters
which the law itself regards as confidential.”) (quoting *Totten*, 92 U.S. at 107 (emphasis added by *Tenet* court); *Al-*
Haramain, 507 F.3d at 1205 (holding that constitutional and statutory claims against government for alleged
warrantless electronic surveillance program must be dismissed because plaintiffs could not establish standing
without evidence precluded by the state secrets privilege, unless FISA preempts the privilege).

1 The Government may assert a *Reynolds* privilege claim “at any time, even at the pleading
2 stage,” and need not wait for an evidentiary dispute to arise. *Jeppesen*, 614 F.3d at 1080-81. In
3 analyzing such an assertion, the Court must ensure that the Government has satisfied the
4 procedural requirements for invoking the state secrets privilege, make an independent
5 determination that the information is privileged, and resolve how the matter should proceed in
6 light of the successful privilege claim. *Id.* at 1080.
7

8 **1. Procedural Requirements**

9 The state secrets privilege is “not to be lightly invoked.” *Jeppesen*, 614 F.3d at 1080
10 (quoting *Reynolds*, 345 U.S. at 7). To make sure that the privilege is invoked only when
11 necessary, the Government “there must be a formal claim of privilege, lodged by the head of the
12 department which has control over the matter, after actual personal consideration by that
13 officer.” *Id.* (quoting *Reynolds*, 345 U.S. at 7-8).
14

15 **2. The Court’s Independent Evaluation of the Privilege Claim**

16 The privilege claim must be sufficiently detailed to permit the Court’s independent
17 determination of it. *Jeppesen*, 614 F.3d at 1080. The privilege must be sustained when the court
18 is satisfied, “from all the circumstances of the case, that there is a reasonable danger that
19 compulsion of the evidence will expose . . . matters which, in the interest of national security,
20 should not be divulged.” *Reynolds*, 345 U.S. at 10. “If this standard is met, the evidence is
21 absolutely privileged, irrespective of the plaintiffs’ countervailing need for it.” *Jeppesen*, 614
22 F.3d at 1081 (citing *Reynolds*, 345 U.S. at 11 (“[E]ven the most compelling necessity cannot
23 overcome the claim of privilege if the court is ultimately satisfied that [state] secrets are at
24 stake.”)). In evaluating the need for secrecy, courts must “acknowledge the need to defer to the
25 Executive on matters of foreign policy and national security and surely cannot legitimately find
26 ourselves second guessing the Executive in this arena.” *Al-Haramain*, 507 F.3d at 1203. At the
27
28

1 same time, “the state secrets doctrine does not represent a surrender of judicial control over
2 access to the courts,” *Jeppesen*, 614 F.3d at 1082, and “to ensure that the state secrets privilege is
3 asserted no more frequently and sweepingly than necessary, it is essential that the courts
4 continue critically to examine instances of its invocation.” *Id.* (internal quotations and citation
5 omitted).

7 **3. Impact of Privilege Assertion on the Case**

8 When a court sustains a claim of privilege, it must then resolve how the matter should
9 proceed in light of the successful privilege claim. When successfully invoked, the evidence
10 subject to the privilege is “completely removed from the case.” *Kasza v. Browner*, 133 F.3d
11 1159, 1166 (9th Cir. 1998). In the normal course, after the privileged evidence is excluded, “the
12 case will proceed accordingly, with no consequences save those resulting from the loss of
13 evidence.” *Al-Haramain*, 507 F.3d at 1204 (quoting *Ellsberg v. Mitchell*, 709 F.2d 51, 64 (D.C.
14 Cir. 1983)). In some cases, however, “application of the privilege may require dismissal of the
15 action.” *Jeppesen*, 614 F.3d at 1083. “When this point is reached, the *Reynolds* privilege
16 converges with the *Totten* bar, because both require dismissal.” *Id.*

18 First, “if ‘the plaintiff cannot prove the *prima facie* elements of her claim with
19 nonprivileged evidence, then the court may dismiss her claim as it would with any plaintiff who
20 cannot prove her case.’” *Jeppesen*, 614 F.3d at 1083 (quoting *Kasza*, 133 F.3d at 1166).
21 Similarly, if the plaintiff cannot establish her standing without the excluded state secrets, then the
22 privilege assertion requires dismissal. *Al-Haramain*, 507 F.3d at 1204-05. Second, “‘if the
23 privilege deprives the defendant of information that would otherwise give the defendant a valid
24 defense to the claim, then the court may grant summary judgment to the defendant.’” *Jeppesen*,
25 614 F.3d at 1083 (quoting *Kasza*, 133 F.3d at 1166) (internal quotations omitted). And third,
26 “even if the claims and defenses might theoretically be established without relying on privileged
27
28

1 evidence, it may be impossible to proceed with the litigation because—privileged evidence being
2 inseparable from nonprivileged information that will be necessary to the claims or defenses—
3 litigating the case to a judgment on the merits would present an unacceptable risk of disclosing
4 state secrets.” *Id.*; see also *El-Masri v. United States*, 479 F.3d 296, 308 (4th Cir. 2007) (“[A]
5 proceeding in which the state secrets privilege is successfully interposed must be dismissed if the
6 circumstances make clear that privileged information will be so central to the litigation that any
7 attempt to proceed will threaten that information’s disclosure.”); *Fitzgerald v. Penthouse Int’l*,
8 *Ltd.*, 776 F.2d 1236, 1241-42 (4th Cir. 1985) (“[I]n some circumstances sensitive military secrets
9 will be so central to the subject matter of the litigation that any attempt to proceed will threaten
10 disclosure of the privileged matters.”); accord *Farnsworth Cannon, Inc. v. Grimes*, 635 F.2d
11 268, 279-81 (4th Cir. 1980) (*en banc*).

12 13 14 **4. The Attorney General’s Policy**

15 In addition to these judicial standards, under 2009 policy issued by the Attorney General
16 governing the assertion and defense of the state secrets privilege in litigation, the Department of
17 Justice will defend an assertion of the state secrets privilege in litigation, and seek dismissal of a
18 claim on that basis, only when “necessary to protect against the risk of significant harm to
19 national security.” Policies and Procedures Governing Invocation of the State Secrets Privilege
20 at 1, available at <http://www.justice.gov/opa/documents/state-secret-privileges.pdf>. Moreover,
21 “[t]he Department will not defend an invocation of the privilege in order to: (i) conceal
22 violations of the law, inefficiency, or administrative error; (ii) prevent embarrassment to a
23 person, organization, or agency of the United States government; (iii) restrain competition; or
24 (iv) prevent or delay the release of information the release of which would not reasonably be
25 expected to cause significant harm to national security.” *Id.* at 2.

26
27 The Attorney General’s policy also established detailed internal procedures for review of
28

1 a proposed assertion of the state secrets privileged in a particular case. Those procedures require
2 submissions by the relevant government departments or agencies specifying “(i) the nature of the
3 information that must be protected from unauthorized disclosure; (ii) the significant harm to
4 national security that disclosure can reasonably be expected to cause; [and] (iii) the reason why
5 unauthorized disclosure is reasonably likely to cause such harm.” *Id.* The Department will
6 defend an assertion of the privilege in court only with the personal approval of the Attorney
7 General following review and recommendations from senior Department officials. *Id.* at 3.

9 **B. Plaintiffs’ Allegations of Dragnet Surveillance Program Cannot Be**
10 **Litigated Without Information Over Which The United States Has**
11 **Properly Asserted The State Secrets Privilege.**

12 The United States has properly asserted and supported the state secrets privilege in this
13 case. The DNI, who heads the United States Intelligence Community, *see* 50 U.S.C. § 403
14 (b)(1); *Al-Haramain*, 507 F.3d at 1202 & n. 6, has formally asserted the state secrets privilege
15 after actual personal consideration of the matter. *See* Public and Classified *In Camera, Ex Parte*
16 Declarations of James R. Clapper, Director of National Intelligence. The DNI’s assertion of the
17 privilege is further supported by a declaration from the NSA. *See* Public and Classified *In*
18 *Camera, Ex Parte* Declarations of Frances Fleisch, National Security Agency.

19 Through these declarations, the Government has asserted the state secrets privilege (as
20 well as other statutory privileges) over (1) information that may tend to confirm or deny whether
21 plaintiffs have been subject to any alleged NSA intelligence activity that may be at issue in this
22 case; (2) any information concerning NSA intelligence activities, sources, or methods that may
23 relate to or be necessary to litigate plaintiffs’ claims, including allegations that NSA, with the
24 assistance of telecommunications carriers such as AT&T and Verizon, indiscriminately
25 intercepts the content of communications and collects communication transactional records of
26 millions of Americans as part of an alleged presidentially authorized program after 9/11. The
27 DNI and NSA privilege assertions include information about the scope and operation of the
28

1 TSP,¹⁰ other information related to demonstrating that the NSA does not engage in the content
2 surveillance dragnet alleged by plaintiffs, information about whether NSA obtained
3 communication transactional records from telecommunications companies such as AT&T or
4 Verizon, and information that may tend to confirm or deny whether any particular
5 telecommunications company has provided assistance to the NSA in connection with any alleged
6 activity.¹¹

7 The Government has amply demonstrated in the DNI and NSA public and classified
8 declarations that disclosure of the privileged information reasonably could be expected to cause
9 exceptionally grave damage to national security. The disclosure of information concerning
10 whether plaintiffs have been subject to alleged NSA intelligence activity would necessarily
11 reveal NSA intelligence sources and methods, including whether certain intelligence collection
12 activities existed and the nature of any such activity. The disclosure of whether specific
13 individuals were targets of alleged NSA activities would also reveal who is subject to
14 investigative interest—helping that person to evade surveillance—or who is not—thereby
15 revealing the scope of intelligence activities as well as the existence of secure channels for
16 communication. *See* Public DNI Decl. ¶ 22; Public NSA Decl. ¶ 16-17. *See also Al-Haramain*,
17 507 F.3d at 1203.

18
19
20
21
22
23
24
25
¹⁰ On January 17, 2007, the Government made public the general facts that news orders of the Foreign
Intelligence Surveillance Court had been issued and authorized the Government to target for collection certain
international communications into or out of the United States where there is probable cause to believe that one of
the communicants is a member or agency of al Qaeda or an affiliated terrorist organization; that, as a result of these
orders, any electronic surveillance that had been occurring as part of the TSP was then being conducted subject to
the approval of the FISA court; and that, under these circumstances, the TSP was not reauthorized. *See* NSA Decl.
¶ 15, n.5. While plaintiffs do not allege they were subject to TSP surveillance, the operational details of that
program remain classified and subject to the DNI's privilege assertion. *See* Public DNI ¶ 23. In addition, as noted
above, in July 2008 Congress enacted the FISA Amendments Act of 2008, which established new FISA authority to
undertake electronic surveillance directed at non-U.S. persons located outside the United States. *See* 50 U.S.C.
§ 1881a, *et seq.* Again, plaintiffs do not challenge any surveillance under this authority, and the particular sources
and methods by which it is conducted likewise are classified and privileged.

26
27
28
¹¹ In addition, the DNI has asserted privilege over classified information concerning the specific nature of
the terrorist threat posed by al Qaeda and its affiliates and other threats to the United States. *See* Public DNI Decl.
¶ 11(A); 21. Such information is crucial to understanding the important to our national security of the NSA
intelligence activities, sources, and methods implicated by plaintiffs' allegations but cannot be disclosed without
causing exceptionally grave danger to national security. *Id.*

1 In addition, the disclosure of other privileged information in litigating plaintiffs’
2 allegation that the NSA has intercepted the communications content and obtained the
3 communications transactional records of millions of Americans, as part of an alleged
4 presidentially-authorized program after 9/11, reasonably could be expected to cause
5 exceptionally grave damage to national security. The DNI explains that, as the Government has
6 previously indicated, the NSA’s collection of the content¹² of communications under the now
7 inoperative TSP was directed at international communications in which a participant was
8 reasonably believed to be associated with al Qaeda or an affiliated terrorist organization, and
9 thus plaintiffs’ allegation that the NSA has indiscriminately collected the content of millions of
10 communications sent or received by people inside the United States after 9/11 under the TSP is
11 false. *See* Public DNI ¶ 24; Public NSA Decl. ¶ 18. But attempting to demonstrate that the TSP
12 was not the content dragnet plaintiffs allege, or that the NSA has not otherwise engaged in a
13 content dragnet, would risk or require the disclosure of highly classified NSA intelligence
14 sources and methods about the TSP and other NSA activities, causing exceptionally grave
15 damage to national security. *See* Public DNI Decl.
16 ¶ 24; Public NSA Decl. ¶ 18.

17 The DNI has also explained that confirmation or denial of whether the NSA has collected
18 communication records would cause exceptional harm to national security by disclosing whether
19 or not NSA utilizes certain intelligence sources and methods, thereby revealing NSA’s
20 capabilities and operations, or the lack thereof, information that foreign adversaries could
21 exploit. *See* Public DNI Decl. ¶ 25; Public NSA Decl. ¶ 20. *See Terkel v. AT&T Corp.*, 441 F.
22 Supp. 2d 899, 917 (N.D. Ill. 2006) (addressing an identical allegation, upholding the
23 Government’s state secrets privilege assertion to preclude disclosure of whether the Government
24 was obtaining large quantities of communications records, information that would have allowed
25 adversaries to gain valuable insight into the Government’s intelligence activities); *Hepting*, 439

26
27 ¹² The term “content” is used herein to refer to the substance, meaning or purport of a communication, as
28 defined in 18 U.S.C. § 2510(8). *See* Public DNI Decl. ¶ 23, n.1.

1 F. Supp. 2d at 997 (preventing discovery into allegations concerning communications records,
2 noting that the Government has neither confirmed nor denied whether it monitors
3 communications records).

4 Litigation of the plaintiffs' claims would also plainly risk or require the disclosure of
5 whether particular telecommunications carriers, including AT&T or Verizon, assisted the
6 Government in alleged intelligence activities. Plaintiffs clearly allege such assistance, and any
7 attempt to address their claims would encounter privileged information concerning the role, if
8 any, of particular telecommunications providers. The DNI again has demonstrated that
9 disclosure of whether the NSA has an intelligence relationship with a particular
10 telecommunications company reasonably could be expected to cause exceptionally grave damage
11 to national security—among other reasons, by revealing to foreign adversaries which channels of
12 communication may or may not be secure. *See* Public DNI Decl. ¶ 26; Public NSA Decl. ¶¶ 21-
13 22.

14 Notably, in enacting the FISA Act Amendments Act of 2008, the Senate Select
15 Committee on Intelligence (“SSCI”) found that “[t]he details of the President’s program are
16 highly classified. As with other intelligence matters, the identities of persons or entities who
17 provide assistance to the U.S. Government are protected as vital sources and methods of
18 intelligence....It would be inappropriate to disclose the names of the electronic communication
19 service providers from which assistance was sought, the activities in which the Government was
20 engaged or in which providers assisted, or the details regarding any such assistance.” S. Rep.
21 110-209, 2007 WL 5334390, at 7 (110th Cong., 1st Sess. 2007).¹³ *See also* *Terkel*, 441 F. Supp.
22 2d at 917 (upholding the Government’s privilege assertion over whether AT&T had disclosed
23

24
25 ¹³ The Government does not contend that the plaintiffs’ claims against the Government are foreclosed by
26 the FAA. We simply observe that this litigation puts squarely at issue the information Congress sought to protect
27 through the FAA—“the names of the electronic communication service providers from which assistance was sought,
28 the activities in which the Government was engaged or in which providers assisted, or the details regarding any such
assistance.” *See* S. Rep. 110-209 at 9.

1 communications records to the Government).¹⁴

2 Accordingly, attempting to litigate this matter to a judgment on the merits would present
3 an unacceptable risk of disclosing state secrets. *Jeppesen*, 614 F.3d at 1083. On the face of the
4 complaint, it is apparent that plaintiffs seek to put at issue NSA intelligence sources and methods
5 allegedly used after the 9/11 attacks and the identities of any telecommunication carriers that
6 may have assisted the Government. Properly privileged information is not at the periphery of the
7 case: the very purpose of the litigation is to obtain the disclosure of NSA sources and methods in
8 order to probe into their lawfulness. The DNI and NSA privilege assertions, including their
9 classified submissions, set forth in detail the information plainly at risk of disclosure and the
10 exceptional damage to national security that would result from disclosure.
11

12 Moreover, the existence of public speculation about alleged NSA activities in media
13 reports, or by plaintiffs' own declarants, does not diminish the need to protect the intelligence
14 sources and methods at issue.¹⁵ As the NSA explains, the "process of sorting out whether any
15 allegation is true, partly true, or wholly false, would necessarily risk or require disclosure of the
16 intelligence sources and methods and confirm to our adversaries whether or not, or to what
17 extent, the NSA utilizes certain sources and methods, and thereby reasonably could be expected
18 to cause exceptionally grave damage to national security." *See* Public NSA Decl. ¶ 4; Public DNI
19

20
21 ¹⁴ Litigation of plaintiffs' allegations concerning telecommunications carriers is foreclosed not only by
22 operation of the state secrets privilege, but also directly by the *Totten/Tenet* doctrine as well. *Tenet*, 544 U.S. at 11
23 ("The possibility that a suit may proceed and an espionage relationship may be revealed, if the state secrets privilege
is not found to apply, is unacceptable: Even a small chance that some court will order disclosure of a source's
identity could well impair intelligence gathering and cause sources to 'close up like a clam.'") (internal quotations
and citation omitted).

24 ¹⁵ Aside from being wholly speculative, plaintiffs' declarations all rely on inadmissible hearsay as to what
25 the declarants have allegedly been told. For example, Mr. Drake admits that he was not read into the alleged
26 President's Surveillance Program, but nonetheless states that "various NSA employees who were implementing
27 various aspects of the PSP confided in me and told me that the PSP involved the collection of domestic electronic
28 communications traffic without any privacy protections or judicial oversight." Drake Declaration at ¶ 7. *See also*
Binney Declaration at ¶ 5. The statements are offered for the truth of the matters asserted therein, and are thus
inadmissible hearsay. *See* Fed. R. Evid. 801, 802. In addition, plaintiffs' declarations rely on media reports and
publications for the truth of the matters asserted therein, which also constitute inadmissible hearsay.

1 Decl. ¶ 3. In this case, “the claims and possible defenses are so infused with state secrets that the
2 risk of disclosing them is both apparent and inevitable.” *Jeppesen*, 614 F.3d at 1089. Adversarial
3 litigation is “inherently complex and unpredictable,” and “where the relevant secrets are difficult
4 or impossible to isolate . . . even efforts to define a boundary between privileged and
5 unprivileged evidence would risk disclosure by implication.” *Id.*

6
7 Beyond the unacceptable risk of disclosing sensitive sources and methods of intelligence
8 collection, it should also be apparent that plaintiffs could not establish their own individual
9 standing to sue without information about whether they were in fact subject to surveillance.
10 Plaintiffs, of course, bear the burden of establishing standing and must demonstrate (1) an injury-
11 in-fact, (2) a causal connection between the injury and the conduct complained of, and (3) a
12 likelihood that the injury will be redressed by a favorable decision. *Lujan v. Defenders of*
13 *Wildlife*, 504 U.S. 555, 559-60 (1992). In meeting this burden, plaintiffs must demonstrate an
14 actual or imminent—not speculative or hypothetical—injury that is particularized as to them;
15 they cannot rely on alleged injuries to unnamed members of a purported class. *See, e.g., Warth*
16 *v. Selden*, 422 U.S. 490, 502 (1975); *see also Ellsberg*, 709 F.2d at 65. Plaintiffs cannot rest on
17 general allegations in their complaint, but must be able to set forth specific facts that establish
18 their standing to obtain the relief sought. *See Lewis v. Casey*, 518 U.S. 343, 358 (1996) (quoting
19 *Lujan*, 504 U.S. at 561).
20
21

22 For each cause of action, plaintiffs must establish that they have been “aggrieved”—that
23 is, subject to the alleged action being challenged.¹⁶ But information concerning whether

24
25 ¹⁶ With respect to plaintiffs’ claim for damages under FISA Section 1810, the term “aggrieved person” is
26 “coextensive [with], but no broader than, those persons who have standing to raise claims under the Fourth
27 Amendment with respect to electronic surveillance,” H.R. Rep. No. 95-1283, at 66 (1978); *see also Rakus v. Illinois*,
28 439 U.S. 128, 132, n. 2 (1978) (a party raising a Fourth Amendment claim “must allege such a personal stake or
interest in the outcome of the controversy as to assure the concrete adverseness which Art. III requires.”). Similarly,
under the Wiretap Act, 18 U.S.C. § 2510, civil actions may be brought only by a “person whose . . . communication
is intercepted, disclosed, or intentionally used.” 18 U.S.C. § 2520(a). The Stored Communication Act likewise
(cont’d)

1 plaintiffs have been surveilled by the NSA is specifically protected by the Government's state
2 secrets assertion. Because plaintiffs cannot adduce proof that the content of their
3 communications or their communications records have been collected by the Government, the
4 most basic element of every claim—their standing as “aggrieved persons”—cannot be
5 established, and even if plaintiffs attempted to do this by public information, the Government
6 could not address or refute their evidence without information subject to the privilege. *See*
7 *ACLU v. NSA*, 493 F.3d at 656 (Batchelder, J.) (where state secrets privilege prevents discovery
8 of evidence of standing, allegations of harm held to be speculative and insufficient to support
9 standing); *id.* at 692 (Gibbons, J. concurring) (dismissal required where state secrets privilege
10 prevents plaintiffs from establishing whether they were subject to TSP or government from
11 presenting evidence to refute that allegation); *Terkel*, 441 F. Supp. 2d at 919-20 (dismissing
12 claim alleging that AT&T had disclosed communication records to the Government because state
13 secrets privilege foreclosed plaintiffs from establishing their standing). Nor can plaintiffs avoid
14 this obstacle by claiming that NSA unlawfully intercepted the communications of millions of
15 Americans with the assistance of AT&T or Verizon, and plaintiffs are AT&T or Verizon
16 customers. Plaintiffs must establish their own personal injury and cannot do so without properly
17 privileged information.

18 In addition, beyond questions of standing, the merits of plaintiffs' claims cannot be
19 litigated without the privileged information. The Government has asserted the state secrets
20 privilege over the information necessary to prove or disprove plaintiffs' claims that the NSA,
21 with assistance from particular telecommunications providers, conducted a dragnet collection of
22 the content of communications and of communications records. For example, plaintiffs' Wiretap
23 Act claim would require proof that one of plaintiffs' wire or electronic communications, as
24 defined in the Act (*see* 18 U.S.C. § 2510 (1), (12)), had been intercepted—information that

25
26 limits civil remedies to “person[s] aggrieved” under the statute, *id.* § 2707(a); *see id.* 2711(1) (adopting § 2510(11)
27 definition of “aggrieved person” as one “who was a party to any intercepted . . . communication” or “a person
28 against whom the interception was directed”). Each of these provisions reflects the fundamental point that only
persons who can establish factually that their own rights were injured by the actual interception or disclosure of their
own communications (or records) have Article III standing to proceed.

1 would reveal whether or not particular intelligence methods were utilized and conducted through
2 a particular carrier.

3 Similarly, for their ECPA claims, plaintiffs would have to show that the Government
4 required an electronic communication service provider to disclose the content of plaintiffs'
5 communications in electronic storage, and whether or not such a disclosure occurred pursuant to
6 a court order or statutory authority. *See* 18 U.S.C. § 2703(a), (b). With respect to plaintiffs'
7 ECPA claim concerning the alleged collection of communication records, *see* 18 U.S.C.
8 § 2703(c), not only must there be official confirmation or denial of the existence of the alleged
9 activity but, if that activity were confirmed, plaintiffs would have to adduce proof concerning the
10 scope and operation of any such program, including, for example, whether it actually
11 encompassed plaintiffs' records, when and how it may have done so, and again whether any such
12 action was authorized by court order or statute.

13 Plaintiffs' related Fourth and First Amendment claims both put at issue not only whether
14 plaintiffs' individual communications (content or records) were collected, but whether there
15 existed a reasonable basis for the particular search or seizure, whether exigent circumstances
16 warranted any action at issue, and what specific information was obtained by the Government.
17 Fourth Amendment claims require fact-specific determinations, including whether a search was
18 undertaken, under what authority, whether it violated an expectation of privacy, and why the
19 Government may have acted. *See, e.g., O'Connor v. Ortega*, 480 U.S. 709, 719 (1987) (“what
20 is reasonable depends on the context within which a search takes place”) (quoting *New Jersey v.*
21 *T.L.O.*, 469 U.S. 325, 337 (1985)). And if the Government obtained only non-content
22 informational records, there may be no Fourth Amendment issue at all,¹⁷ but even that
23 proposition could not be addressed without the disclosure of properly privileged information.

24
25 ¹⁷ *See Smith v. Maryland*, 442 U.S. 735, 742-46 (1979) (holding that individuals have no legitimate
26 expectation of privacy in the numbers they dial on the telephone, and a pen register search of such information does
27 not constitute a search for Fourth Amendment purposes); *United States v. Forrester*, 512 F.3d 500, 510 (9th Cir.
28 2008) (“[E]-mail and Internet users have no expectation of privacy in the to/from addresses of their messages or the
IP addresses of the websites they visit because they should know that this information is provided to and used by
Internet service providers for the specific purpose of directing the routing of information.”).

1 Finally, adjudication of the merits as well as plaintiffs’ standing to obtain prospective
2 relief in particular would require disclosure of whether any of the alleged activities (if they exist)
3 are ongoing, occurred only during certain periods, or were authorized at some point by statute,
4 court order, or other authority. Such disclosures again would reveal a range of facts concerning
5 whether, when, how, why, and under what authority the NSA may have utilized certain
6 intelligence sources and methods—information that is subject to the Government’s privilege
7 assertion and cannot be disclosed without risking exceptionally grave damage to national
8 security. The exclusion of this information from the case pursuant to the state secrets privilege
9 precludes the litigation of plaintiffs’ claims, including their claims for prospective relief for
10 which they must show that they are currently subject to an alleged activity or otherwise
11 “immediately in danger of sustaining some direct injury” as the result of the challenged conduct.
12 *City of Los Angeles v. Lyons*, 461 U.S. 95, 102 (1983).

13 In sum, the Government has demonstrated that the privileged information identified by
14 the DNI and NSA is properly excluded from this case, and that the risk of its disclosure exists at
15 all stages as to all claims, and, accordingly that dismissal of this litigation is required.

16 **IV. PLAINTIFFS’ MOTION FOR PARTIAL SUMMARY JUDGMENT**
17 **SHOULD BE DENIED BECAUSE LITIGATION OF PLAINTIFFS’**
18 **CLAIMS MAY NOT PROCEED UNDER FISA.**

19 To counter the Government’s reassertion of the state secrets privilege, plaintiffs contend
20 that the Foreign Intelligence Surveillance Act, 50 U.S.C. § 1801, *et seq.*, “displaces” the state
21 secrets privilege as to all of their claims and, in its place, establishes procedures to be followed
22 “in cases involving electronic surveillance.” *See* Pls. Mem. at 12-22. Plaintiffs’ FISA
23 displacement theory is without merit.

24 In sum, plaintiffs first disregard the governing standard— namely, that displacement may
25 be found only when a statutory provision speaks clearly and directly to the particular application
26 of the common law at issue. Far from clearly addressing the issue, *nothing* in the FISA’s text or
27 legislative history provides any indication that Congress intended to override the Executive’s
28

1 long-recognized ability to assert the state secrets privilege or to override the process established
2 by the Supreme Court for invoking the privilege. In particular, nothing in subsection 106(f) of
3 the FISA, 50 U.S.C. § 1806(f)—the provision plaintiffs rely on—speaks clearly or directly to the
4 question. Rather, the procedures for *in camera*, *ex parte* judicial review in that provision apply
5 to an entirely different scenario: when the use of evidence derived from electronic surveillance
6 against an “aggrieved” person is at issue—*i.e.*, a person who is the “target of an electronic
7 surveillance” or a “person whose communications or activities were subject to electronic
8 surveillance.” *See* 50 U.S.C. § 1801(k). Subsection 1806(f) does not permit a person who merely
9 alleges he or she has been subject to electronic surveillance to discover whether that is so and
10 then litigate the merits. Notably, legislative history for subsection 1806(f) makes clear that the
11 Government may choose to protect intelligence sources and methods, and forego judicial review
12 under that provision, by not using surveillance evidence against an aggrieved person in a
13 particular proceeding. As set forth further below, the Court should reject plaintiffs’ FISA
14 displacement theory.¹⁸

17 **A. Congress May Not Displace the Common Law Without a**
18 **Clear Statement Addressing the Particular Question.**

19 Whether the FISA displaces the state secrets privilege in the circumstances of this case
20 turns on whether Congress has spoken to the matter clearly and directly. Nothing in the FISA
21 indicates any intention by Congress—let alone a clear directive—to abrogate the state secrets
22 privilege. Two related doctrines govern this issue.

23 First, in order to abrogate such a well-established common law principle as the state
24

25 ¹⁸ Plaintiffs cite former Chief Judge Walker’s decision *In re National Security Agency Telecommunications*
26 *Records Litigation (Al-Haramain Islamic Foundation, Inc. v. Bush)*, 564 F. Supp. 2d 1109, 1124 (N.D. Cal. 2008)
27 (holding that subsection 1806(f) displaces the state secrets privilege). *See* Pls. Mem. at 12 n.7. Judgment in *Al-*
28 *Haramain* has now been vacated on other grounds. *See Al-Haramain Islamic Foundation, Inc. v. Bush*, 2012 WL
3186088. The Government continues to disagree with Judge Walker’s analysis, as noted throughout below.

1 secrets privilege, a statute must “speak directly” to the question addressed by the common law.
2 *City of Milwaukee v. Illinois*, 451 U.S. 304, 315 (1981); *County of Oneida v. Oneida Indian*
3 *Nation*, 470 U.S. 226, 236- 37 (1985); *In re Hanford Nuclear Reservation Litigation*, 497 F.3d
4 1005, 1018-19 (9th Cir. 2007). The state secrets privilege is deeply rooted in common law,
5 *Kasza*, 133 F.3d at 1167-68, and “the common law . . . ought not to be deemed repealed, unless
6 the language of a statute be clear and explicit for this purpose.” *Norfolk Redevelopment &*
7 *Housing Auth. v. Chesapeake & Potomac Tel. Co.*, 464 U.S. 30, 35 (1983); *see also United*
8 *States v. Texas*, 507 U.S. 529, 534 (1993); *In re Niles*, 106 F.3d 1456, 1461 (9th Cir. 1997).
9 “Where a common-law principle is well established . . . the courts may take it as given that
10 Congress has legislated with an expectation that the principle will apply except “when a statutory
11 purpose to the contrary is evident.” *Astoria Fed. Sav. & Loan Ass’n v. Solimino*, 501 U.S. 104,
12 108 (1991) (citation omitted). The Ninth Circuit has applied the “direct statement” standard in
13 assessing whether statutory law displaces the state secrets privilege, *Kasza*, 133 F.3d at 1167.
14 Accordingly, there can be no basis to conclude that Congress set aside the privilege through the
15 FISA unless it did so in clear and explicit terms.
16

17
18 In addition, because the state secrets privilege has “a firm foundation in the Constitution,
19 in addition to its basis in the common law of evidence,” *El-Masri*, 479 F.3d at 303-04, a separate
20 doctrine requires that statutes not be read to interfere with the President’s powers unless
21 Congress has made clear an intent to confront the ensuing constitutional questions. *See Franklin*
22 *v. Massachusetts*, 505 U.S. 788, 800-01 (1992) (an express statement is required before
23 concluding that Congress meant to regulate the President’s exercise of his executive functions).¹⁹
24

25
26 ¹⁹ In *Franklin*, the Supreme Court held that the Administrative Procedure Act does not apply to the
27 President, finding that “[o]ut of respect for the separation of powers and the unique constitutional position of the
28 President, . . . textual silence is not enough to subject the President to the provisions of the APA. *Franklin*, 505 U.S.
at 800. Likewise, in *Armstrong v. Bush*, 924 F.2d 282 (D.C. Cir. 1991), the D.C. Circuit rejected application of the
(cont’d)

1 The state secrets privilege derives from the President’s Article II powers, including his powers as
2 Commander in Chief. *See United States v. Nixon*, 418 U.S. 683, 710 (1974); *cf. Department of*
3 *the Navy v. Egan*, 484 U.S. 518, 527 (1988) (the Executive’s authority to control access to
4 information bearing on national security “exists quite apart from any explicit congressional
5 grant” of power because it flows primarily from the “constitutional investment of power in the
6 President” found in Article II of the Constitution).

7
8 Accordingly, displacement of the state secrets privilege cannot be found unless Congress made
9 clear its intent to do so. As detailed below, neither the terms of FISA nor its legislative history
10 references the state secrets privilege, and the terms of subsection 1806(f) cannot reasonably be
11 construed to displace the privilege or permit discovery into whether someone has been subject to
12 alleged surveillance.

13
14 Plaintiffs do not acknowledge the standard governing displacement of the common law,
15 but instead assert that Rule 501 of the Federal Rules of Evidence applies. *See* Pls. Mem. at 13-
16 14 &n.9. This contention is meritless. Rule 501 provides that “[t]he common law—as
17 interpreted by United States courts in the light of reason and experience—governs a claim of
18 privilege unless any of the following provides otherwise: [1] the United States Constitution; [2] a
19 federal statute; or [3] rules prescribed by the Supreme Court.” As a general matter, the language
20 of FRE 501 provides that the common law governs unless it is otherwise displaced. The rule
21 does not purport to address the standard of review governing whether a federal statute displaces a
22 common law privilege or rule prescribed by the Supreme Court. Indeed, as the authority cited
23 above indicates, the Supreme Court has repeatedly set forth the “clear statement” rule for
24

25
26
27 APA to Presidential action “[i]n the absence of any affirmative evidence that these issues were considered in the
28 legislative process and that Congress passed the APA with the understanding that it would regulate presidential as
well as other executive branch action. *Armstrong*, 924 F.2d at 288-90.

1 deciding displacement issues even after FRE 501 was adopted.²⁰

2 **B. Congress’ “Comprehensive” Regulation Of Foreign Intelligence**
 3 **Surveillance Does Not Displace The State Secrets Privilege.**

4 Before addressing the particular terms of FISA subsection 1806(f), one aspect of
 5 plaintiffs’ displacement theory may be dispensed with in short order. The fact that the FISA
 6 comprehensively regulates the Government’s use of foreign intelligence electronic surveillance
 7 says nothing about whether the statute clearly and directly displaces the state secrets privilege in
 8 the particular circumstances of this litigation. *See* Pls. Mem. at 14-17.²¹

9 There is no question that Congress, through the FISA, established a detailed regime
 10 addressing foreign intelligence surveillance.²² But even in contexts where a “comprehensive”
 11 scheme of regulation is at issue, “[t]he test for whether congressional legislation excludes the
 12 declaration of federal common law is simply whether the statute ‘speak[s] directly to [the]
 13 question’ at issue.” *American Elec. Power Co. v. Connecticut*, ---U.S.---, 2011 WL 2437011 *9
 14 (U.S. June 20, 2011) (quoting *Mobil Oil Corp. v. Higginbotham*, 436 U.S. 618, 625 (1978)); *see*
 15 *also City of Milwaukee v. Illinois*, 451 U.S. at 313-14 (federal statute must “speak directly” to the
 16 “particular issue” to supplant common law).²³ Thus, the inquiry here is not whether the FISA

17
 18
 19
 20 ²⁰ Plaintiffs’ citation to the legislative history of Rule 501 is equally unavailing. Reference to a privilege
 21 for “secrets of state” in the history of Rule 501 concerned the rejection of proposed statutory rules of evidence
 22 governing numerous privileges, including for state secrets, in favor of the more general rule adopted. *See* H.R. Rep.
 No. 93-650 (1973), reprinted in 1974 U.S.C.C.A.N. 7075, 7082; S. Rep. No. 93-1277 (1974); 1974 U.S.C.C.A.N.
 7051, 7058 (same).

23 ²¹ Judge Walker adopted a similar theory in reaching his now-vacated judgment in *Al-Haramain*. *See* 564 F.
 Supp. 2d at 1115-20. As set forth herein, that analysis was incorrect.

24 ²² Among other things, FISA strictly defines “electronic surveillance” for foreign intelligence surveillance
 25 purposes, 50 U.S.C. § 1801(f); establishes a procedure for the Government, with the approval of the Attorney
 26 General, to apply for judicial orders authorizing such surveillance, 50 U.S.C. § 1804; creates a special court, the
 Foreign Intelligence Surveillance Court, to pass upon and grant such applications, 50 U.S.C. §§ 1803, 1805; and
 provides for civil and criminal liability for specified statutory violations, 50 U.S.C. §§ 1809, 1810.

27 ²³ For example, in *City of Milwaukee*, 451 U.S. 304— a case involving an elaborate federal statutory
 28 system for dealing with the problem of interstate water pollution under the Federal Water Pollution Control Act—

(cont’d)

1 was intended to govern the use of electronic surveillance in a comprehensive fashion, but
2 whether the FISA speaks clearly and directly to the particular aspect of common law at issue in
3 this litigation—whether the Government is precluded from asserting the state secrets privilege to
4 protect intelligence sources and methods, including whether the plaintiffs have been subject to
5 alleged electronic surveillance.

6
7 Moreover, contrary to plaintiffs’ reasoning, substantive regulation of foreign intelligence
8 gathering does not encompass the regulation of privilege assertions in cases that touch upon that
9 subject area, much less the state secrets privilege. The state secrets privilege has been and may
10 properly be invoked with respect to a wide range of subject matters, including, tort suits, *see*
11 *United States v. Reynolds*, 345 U.S. 1 (1953); environmental challenges, *see Kasza*, 133 F.3d at
12 1162; and procurement disputes, *see General Dynamics Corp.*, 131 S. Ct. 1900.²⁴

13
14 **C. The Text of Subsection 1806(f) Does Not Displace the State**
15 **Secrets Privilege or Permit Discovery Into Whether A**
16 **Person Has Been Subject to Alleged Surveillance.**

17 Turning to the specific FISA provision on which plaintiffs rely, subsection 1806(f) does
18 not expressly or even impliedly displace the state secrets privilege. Plaintiffs’ contention
19 proceeds from the premise that both subsection 1806(f) and the state secrets privilege “address
20 the same subject matter” – specifically, the circumstances in which ““disclosure [of evidence] or
21 an adversary hearing would harm the national security of the United States.”” Pls. Mem. at 12

22
23 the Supreme Court did not hold that the common law was displaced merely because the federal statutory
24 comprehensively regulated the discharge of pollutants into waterways and overflows of sewage systems, but rather
25 because the statute specifically created a federal permit and administrative process that was found to supplant
26 federal common law remedies for the abatement of interstate water pollution. *See* 451 U.S. at 319-24.

27 ²⁴ Plaintiffs’ “comprehensive scheme” argument also relies on a purported link between FISA Section
28 1810, which authorizes judicial review as to certain violations, and subsection 1806(f) as means to review those
claims. *See* Pls. Mem. at 17. But that theory, which is unsupported generally, has been overtaken by the Ninth
Circuit’s decision that Section 1810 does not create a cause of action against the United States. *See Al-Haramain*,
2012 WL 3186088, **3-8.

1 (citing § 1806(f) and *Al-Haramain*, 507 F.3d at 1196).²⁵ That observation is beside the point.
2 The question is not whether the two procedures implicate the same “subject matter” or share
3 “important characteristics in common” but whether the statutory provision clearly operates to
4 supplant the state secrets privilege. Indeed, plaintiffs’ further observation that subsection 1806(f)
5 and the state secrets privilege have radically different outcomes, with subsection 1806(f)
6 requiring courts to use national security evidence that the state secrets privilege would exclude,
7 *see* Pls. Mem. at 12, undercuts the notion that Congress meant to effect such a change and
8 underscores the importance of requiring a clear statement on the matter.
9

10 Nothing in the text of subsection 1806(f), its legislative history, or applicable case law,
11 indicates that this provision can be invoked by parties seeking to discover in the first instance
12 whether they have been subject to alleged unlawful surveillance and, if so, to then adjudicate the
13 lawfulness of any such surveillance. Subsection 1806(f) is directed at fundamentally different
14 circumstances: to determine the lawfulness of acknowledged surveillance in proceedings where
15 surveillance evidence is *used* against an “aggrieved” person, that is, against “the target of an
16 electronic surveillance or any other person whose communications or activities were subject to
17 electronic surveillance.” 50 U.S.C. § 1801(k).
18

19 Subsection 1806(f), entitled “In camera and ex parte review by district court,” resides
20 within a section of the FISA that governs the “Use of information” obtained from electronic
21 surveillance conducted pursuant to the FISA. *See* 50 U.S.C. § 1806; *see also Al-Haramain*, 2012
22 WL 3186088, at * 5. The role that Subsection 1806(f) plays within Section 1806 is crucial to
23 understanding its purpose and function. Subsections (a) to (e) of Section 1806 concern the
24
25

26 ²⁵ Judge Walker’s analysis proceeded from a similar observation—that the “procedure described in
27 [sub]section 1806(f), while not identical to the procedure described in *Reynolds*, has important characteristics in
28 common with it—enough, certainly, to establish that it preempts the state secrets privilege as to matters to which it
relates.” *AHIF*, 564 F. Supp. 2d at 1119. For the reasons set forth herein, that analysis is wrong.

1 disclosure of surveillance information when it is being used by a governmental entity against an
2 aggrieved person.²⁶

3 Subsection (f) follows and authorizes procedures for the *in camera, ex parte* review of
4 information to determine the lawfulness of FISA surveillance in three circumstances involving
5 an aggrieved person: [1] “Whenever a court or other authority is notified pursuant to subsection
6 (c) or (d) of this section” that the Government “intends to enter into evidence or otherwise use or
7 disclose” surveillance-based information in judicial or administrative proceedings against an
8 aggrieved person. *See* 50 U.S.C. 1806(c), (d), (f); or [2] “[W]henever a motion is made pursuant
9 to subsection (e) of this section” to suppress evidence; or [3] “[W]henever any motion or request
10 is made by an aggrieved person pursuant to any other statute or rule of the United States or any
11 State before any court or other authority of the United States or any State to discover or obtain
12 applications or orders or other materials relating to electronic surveillance or to discover, obtain,
13 or suppress evidence or information obtained or derived from electronic surveillance under this
14 chapter.” *See* 50 U.S.C. § 1806(f). When one of these circumstances exists, the Attorney may
15 file an affidavit attesting that “disclosure or an adversary hearing would harm the national
16 security of the United States” and, upon that occasion, subsection 1806(f) authorizes the district
17 court to “review *in camera* and *ex parte* the application, order, and such other materials relating
18 to the surveillance as may be necessary to determine whether the surveillance of the aggrieved
19 person was lawfully authorized and conducted.” 50 U.S.C. § 1806(f).

24 ²⁶ The text of section 1806 of the FISA is submitted herewith as Ex. 5. In sum, subsection (a) of Section
25 1806 requires that information acquired from electronic surveillance conducted pursuant to the FISA be handled in
26 accord with minimization procedures; subsection (b) provides that such information may not be disclosed for law
27 enforcement purposes unless accompanied by a statement that it may only be used in a criminal proceeding with the
28 advance notice of the Attorney General; subsection (c) requires notice by the United States if it intends to use such
information against an aggrieved person; subsection (d) imposes a similar notice requirement on states and political
subdivisions; and subsection (e) authorizes a motion to suppress such information by a person against whom it is to
be or has been introduced or otherwise used. *See* 50 U.S.C. § 1806(a)-(e).

1 The first two circumstances in which the Attorney General may invoke subsection
2 1806(f) apply where the Government has provided notice of electronic surveillance and
3 affirmatively seeks to use electronic surveillance evidence against an aggrieved person.
4 Plaintiffs’ quotation of subsection 1806(f) omits these two circumstances (*see* Pls. Mem. at 13)
5 and presents only the “motion to discover clause” as if it were a free-standing provision that
6 requires the use of *in camera*, *ex parte* procedures—and thus abrogates the state secrets
7 privilege—whenever a party to a civil action seeks to discover whether they have been subject to
8 alleged electronic surveillance, and, if so, to adjudicate the lawfulness of any such surveillance.²⁷
9
10 But the few words that plaintiffs parse from one sentence in one subsection of Section 1806
11 cannot bear the meaning ascribed to them, and certainly cannot be said to “speak directly” to
12 displacement of the state secrets privilege.

13 The Supreme Court has “over and over stressed that ‘[i]n expounding a statute, [a court]
14 must not be guided by a single sentence or member of a sentence, but [must] look to the
15 provisions of the whole law, and to its object and policy.’” *Nat’l Bank of Oregon*, 508 U.S. at
16 455 (1993) (citations omitted). “Statutory construction ‘is a holistic endeavor’” that, “at a
17 minimum, must account for” a statute’s full text, structure, subject matter, and purpose. *Id.*
18 (citation omitted); *see also Davis v. Michigan Dep’t of Treasury*, 489 U.S. 803, 809
19 (1989)(“words of a statute must be read in their context and with a view to their place in the
20 overall statutory scheme.”) (citations omitted); *Children’s Hosp. Health Ctr. v. Belshe*, 188 F.3d
21 1090, 1096 (9th Cir. 1999) (same).

22 Each subsection of Section 1806 governs the use of information acquired through
23

24
25
26 ²⁷ Plaintiffs do not rely on the entire “motion to discover clause” but, through the use of italics and ellipses,
27 omit a reference in this clause to motions to suppress evidence. *See* Pls. Mem. at 13. This omission is significant
28 because, as explained below, the purpose of discovery under subsection 1806(f) is to prepare for a suppression
motion.

1 electronic surveillance, and each provision relates to the disclosure of surveillance information
2 when it is being used by a governmental entity against an aggrieved person.²⁸ The “motion to
3 discover” aspect of subsection 1806(f) fits neatly within the statutory framework governing the
4 use of surveillance evidence against an aggrieved person by addressing circumstances where an
5 aggrieved person as to whom notice of electronic surveillance has been provided may seek
6 discovery in connection with a suppression motion.²⁹

7
8 Nothing in Section 1806 indicates that a person can trigger *ex parte, in camera* review by
9 seeking to discover whether he or she has been subject to alleged surveillance. All three
10 circumstances in which subsection 1806(f) applies must involve an “aggrieved person.” *See* 50
11 U.S.C. § 1806(f). The only determination that a district court is authorized to make under
12 subsection 1806(f) is “whether the surveillance of the aggrieved person was lawfully authorized
13 and conducted.” 50 U.S.C. § 1806(f). In this case, however, the very question of whether
14 plaintiffs are “aggrieved persons” is subject to the Government’s state secrets and statutory
15 privilege assertions, which encompasses any and all “information that would tend to confirm or
16 deny whether the plaintiffs in this action have been subject to” alleged surveillance activities at
17 issue in the complaint. *See* Public DNI Decl. ¶ 22; Public NSA Decl. ¶¶ 16-17. Subsection
18 1806(f) does not authorize discovery into whether alleged surveillance of a person occurred in
19
20

21
22 ²⁸ The established canon of *noscitur a sociis* indicates that where ““several items in a list shar[e] an
23 attribute,” this ““counsels in favor of interpreting the other items as possessing that attribute as well””). *See*
24 *Washington Dep’t of Soc. & Health Servs. v. Estate of Keffeler*, 537 U.S. 371, 384-85 (2003); *Adams v. United*
25 *States*, 420 F.3d 1049, 1053-54 (9th Cir. 2005). Thus the “motions to discover” clause cannot be viewed in isolation
26 but in the same context as other provisions of Section 1806 and 1806(f) that relate to the use of surveillance
27 evidence.

28
29 ²⁹ *See, e.g., United States v. Warsame*, 547 F. Supp. 2d 982, 984-86 (D. Minn. 2008) (defendants brings
30 motion to disclose materials related to FISA surveillance brought after Government provides notice of use of FISA
31 surveillance evidence in order for him to support suppression motion); *United States v. Abu-Jihaad*, 531 F. Supp. 2d
32 299, 300-301 (D. Conn. 2008) (same); *see also United States v. Damrah*, 412 F.2d 618, 622, 623 (6th Cir. 2005)
33 (same). Subsection 1806(g), entitled “suppression of evidence; denial of motion,” also links judicial review under
34 subsection 1806(f) to motions to suppress evidence. *See* 50 U.S.C. § 1806(g).

1 the first place.³⁰ A contrary interpretation of subsection 1806(f) would transform this provision
 2 from a procedure available to the Attorney General to protect national security where
 3 surveillance evidence is at issue into a sword that permits a person who merely alleges that
 4 surveillance to seek discovery.

5
 6 **D. Legislative History Supports the Conclusion that Subsection 1806(f) Does**
 7 **Not Displace the State Secrets Privilege or Permit Discovery Into**
 8 **Whether Alleged Surveillance Has Occurred.**

9 Legislative history firmly supports the conclusion that subsection 1806(f) applies where
 10 the use of surveillance evidence in a proceeding against an aggrieved person is at issue and does
 11 not, as the plaintiffs would have it, create a mechanism for persons alleging surveillance to
 12 obtain discovery through secure procedures. Congress crafted the provision that became Section
 13 1806 to “set forth *the permissible uses* which may be had of information acquired by means of
 14 electronic surveillance conducted pursuant to this chapter.” See S. Rep. No. 95-701 at 58, 1978
 15 U.S.C.C.A.N. 4027 (Senate Report) (emphasis added). The purpose of these procedures was to
 16 strike an “effective balance” between the need for the Government to protect “the secrecy
 17 necessary to effective intelligence practices” and “the defendant’s constitutional guarantee of a
 18 fair trial [that] could be seriously undercut if he is denied the materials needed to prevent a
 19 proper defense.” *Id.* at 59; 1978 U.S.C.C.A.N. 4028.³¹
 20

21
 22 ³⁰ The precise reference in subsection 1806(f) to “*the surveillance*” against “*the aggrieved person*” (who,
 23 again, “*is the target*” or whose communications “*were subject*” to electronic surveillance), further indicates that the
 24 provision does not concern “alleged” or “possible” surveillance but circumstances where the fact of surveillance is
 25 not in dispute in proceedings under subsection 1806(f).

26 ³¹ This discussion of legislative history is drawn primarily from the Report of the Senate Select Committee
 27 on Intelligence (SSCI) on the Foreign Intelligence Surveillance Act of 1978. See S. Rep. No. 95-701 at 58, 1978
 28 U.S.C.C.A.N. 4027. The Senate Judiciary Committee issued a similar report that includes a nearly verbatim
 discussion of the provision that became subsection 1806(f). See also S. Rep. No. 95-604, 1978 U.S.C.C.A.N. 3954
 (Report of the Senate Committee on the Judiciary). The Senate version of what became subsection 1806(f) was
 adopted by conference committee reconciling the House and Senate versions of the FISA. See H.R. Conf. Rep. No.
 95-1720, at 31-32 (1978). (In the Senate version of the bill, “Subsection (e)” became the current subsection
 1806(f). See S. Rep. 95-701 at 63, 1978 U.S.C.C.A.N. 4032).

(cont’d)

1 In particular, the Senate report indicates that the *in camera, ex parte* procedures in
2 subsection 1806(f) were intended to address the requirements of *Alderman v. United States*, 394
3 U.S. 165 (1969), by providing a secure process for litigating questions of whether evidence being
4 used against someone has been tainted by unlawful surveillance. *See* S. Rep. 95-701 at 65, 1978
5 U.S.C.C.A.N 4034.³² The report noted that *Alderman* had not addressed what procedures would
6 apply to evidence obtained from foreign intelligence electronic surveillance. *See* S. Rep. 95-701
7 at 65. Legislating in that area of uncertainty, Congress enacted procedures to implement but also
8 modify the *Alderman* rule where foreign intelligence surveillance is at issue: instead of requiring
9 mandatory disclosure to allow a defendant to probe the issue of taint, subsection 1806(f) permits
10 the Attorney General to trigger the *in camera, ex parte* procedures of subsection 1806(f) to
11 adjudicate the lawfulness of surveillance and suppression motions without the disclosure of
12 foreign intelligence materials that would harm national security. *See* 50 U.S.C. §1806(f); *see* S.
13 Rep. 95-701 at 65, 1978 U.S.C.C.A.N 4034 (“The Committee views the procedures set forth in
14 this subsection as striking a reasonable balance between an entirely *in camera* proceeding which
15 might adversely affect the defendant’s ability to defend himself, and mandatory disclosure,
16 which might occasionally result in the wholesale revelation of sensitive foreign intelligence
17 information.”).

18
19
20
21
22
23
24
25
26
27
28

Legislative history also undercuts plaintiffs’ theory that subsection 1806(f) permits
discovery into whether a person has been subjected to alleged surveillance. Tellingly, the Senate

³² In *Alderman*, the Supreme Court held that a criminal defendant was entitled to the discovery of transcripts of unlawfully intercepted conversations in order to determine if any evidence admitted against him was derived from that unlawful surveillance and thus tainted. *See Alderman*, 394 U.S. at 182. The surveillance at issue in that case had been acknowledged, *see id.*, 394 U.S. at 167-68, 170 n.3, and the ultimate issue in the case was whether the evidence against any petitioner grew out of illegally overheard conversations and violated the Fourth Amendment, *see id.* at 181. The Government argued that records of specified conversations first be submitted to the trial judge for *in camera* inspection for a relevance determination before disclosure to petitioner, who could seek to show that the Government had used tainted evidence to convict him. *Id.* But the Supreme Court rejected this approach in order to protect adversary proceedings in the criminal justice system. *Id.* at 183.

1 Report contrasts subsection 1806(f) with another provision of the U.S. Code— 18 U.S.C. § 3504
2 — which requires the Government to affirm or deny the existence of surveillance where the
3 admissibility of evidence is challenged in certain proceedings.³³ The Senate Report makes clear
4 that this is not how subsection 1806(f) operates. Rather, the report observes that the “most
5 common circumstance” in which a suppression motion might be brought pursuant to Section
6 1806 would be “*after* a defendant queries the Government under 18 U.S.C. § 3504 and discovers
7 that he has been intercepted by electronic surveillance even before the Government has decided
8 whether evidence derived from that surveillance will be used in the presentation of its case.” *See*
9 S. Rep. No. 95-701 at 63, 1978 U.S.C.C.A.N. 4032. The report explains that subsection 1806(f)
10 “states in detail the procedure the court should follow when it receives a notification under
11 subsection (c) or a suppression motion is filed under [now subsection 1806(e)]” or “for example,
12 whenever an individual makes a motion pursuant to subsection [(e)] or 18 U.S.C. 3504, or any
13 other statute or rule of the United States to discover, obtain, or suppress evidence or information
14 obtained or derived from electronic surveillance conducted pursuant to” the FISA. *Id.* This
15 discussion indicates that subsection 1806(f) is not a mechanism for forcing the Government to
16 confirm or deny alleged surveillance upon a motion to discover but, rather, applies only after a
17 person has separately determined (either from notice by the Government or through a Section
18 3504 proceeding) that electronic surveillance has occurred and it is already been established that
19 the person is “aggrieved” as defined by FISA. Congress was certainly well aware of the
20
21
22
23
24

25 ³³ Section 3504 of Title 18, entitled “Litigation concerning the sources of evidence,” applies only “upon a
26 claim by a party aggrieved that evidence is inadmissible.” 18 U.S.C. § 3504(a)-(c). This provision applies where a
27 person seeks to exclude the use of evidence based on alleged surveillance (typically in grand jury settings). *See*
28 *Gelbard v. United States*, 408 U.S. 41, 54 (1972); *Bacon v. United States*, 466 F.2d 1196, 1197 (9th Cir. 1972); *In re*
Grand Jury Investigation (Doe), 437 F.3d 855, 858 (9th Cir. 2006) (“A grand jury witness may refuse to answer
questions based on illegal interception of his communication.”).

1 procedure in Section 3504 and declined to insert a similar process into subsection 1806(f).³⁴

2 Further negating plaintiffs' displacement theory, legislative history also makes clear that
 3 the procedures set forth in subsection 1806(f) were not intended to compel the Government to
 4 disclose intelligence sources and methods related to electronic surveillance that it wished to
 5 protect. The Senate Report acknowledges that cases may arise where a court applying
 6 subsection 1806(f) may believe that disclosure to the aggrieved person is necessary to make an
 7 accurate determination of legality, but the Government argues would harm national security. In
 8 that circumstance, even after triggering the *in camera*, *ex parte* review procedures of subsection
 9 1806(f), Congress gave the Government a choice: "either disclose the material or forgo the use of
 10 the surveillance-based evidence." *See* S. Rep. No. 95-701 at 65; 1978 U.S.C.C.A.N 4034.³⁵ By
 11 granting the United States the choice to use evidence or dismiss a prosecution, Congress
 12 recognized that whether to reveal surveillance information is a matter within the Executive's
 13 discretion and is a separate and distinct consideration from the procedures that would apply
 14 under subsection 1806(f) should the Government choose to use such evidence. *See also*
 15
 16

17
 18
 19 ³⁴ In entering judgment against the Government in *Al-Haramain*, Judge Walker erroneously applied
 20 Section 3504 to shift the burden to the Government to disprove the existence of alleged surveillance where the use
 21 of evidence was not at issue. *See In re National Security Agency Telecommunications Records Litigation (Al-*
 22 *Haramain Islamic Foundation, Inc. v. Obama)*, 700 F. Supp. 2d 1182, 1190, 1194 (N.D. Cal. 2010) (citing *United*
 23 *States v. Alter*, 482 F.2d 1016 (9th Cir.1973)). *Alter* itself makes clear that, where a grand jury witness declined to
 24 answer questions, the Government would have to confirm or deny alleged surveillance only if a prima facie case was
 25 made that surveillance evidence was being used in the "in connection with the grand jury proceeding in which the
 26 witness is involved." *Id.* at 1026; *see also In re Grand Jury Witness (Whitnack)*, 544 F.2d 1245, 1247 (9th Cir.
 27 1976) (Kennedy, C.J., concurring) (government has no duty to affirm or deny surveillance under section 3504
 28 where grand inquiry is based on independent evidence); *see also In re Grand Jury Investigation*, 437 F.3d 855, 858-
 859 (9th Cir. 2006) (same).

³⁵ The legislative history also explains that the phrase "notwithstanding any other law" in subsection
 1806(f) was intended to prevent an "inventive litigant" from bypassing the carefully drawn procedures in subsection
 1806(f) by seeking to bring a motion "pursuant to any other statute or rule of the United States." *See* S. Rep. No.
 95-701, at 63; S. Rep. No. 96-604, at 57. Accordingly, through this phrase, Congress did not seek to restrict the
 Government from protecting intelligence sources and methods through a privilege assertion, as plaintiffs' contend,
 but to restrict litigants from seeking to circumvent subsection 1806(f) by filing motions for discovery under different
 authority.

1 *Alderman*, 394 U.S. at 181-82, 184 (government had the option to disclose surveillance evidence
2 or dismiss the case).³⁶

3 Finally, if another indication of Congressional intent were needed, it is noteworthy that
4 when Congress last revisited the FISA to enact comprehensive amendments in 2008—as well as
5 specific procedures to foreclose plaintiffs in this case from bringing a cause of action against
6 telecommunications carriers in the *Hepting* litigation—the Senate Select Committee on
7 Intelligence specifically recognized that the Government asserted the state secrets privilege in the
8 cases against the carriers. *See* S. Rep. No. 110-209 (110th Cong., 1ST Sess. 2007), 2007 WL
9 5334390, at 5-6, 9); *see also Hepting*, 671 F.3d 881, 893 (“The Committee pointed to the
10 pending suits, including this one, noting that ““even if these suits are ultimately dismissed on
11 state secrets or some other grounds, litigation is likely to be protracted.”) (citing S. Rep. 110-
12 209). The SSCI also noted that the state secrets privilege prevented carriers that could have
13 availed themselves of a defense that they had not assisted the Government, or were entitled to
14 immunity under existing statutory provisions, from taking advantage of such defenses and
15 enacted the new immunity procedures partially to address this situation. *Id.* at 9. It would have
16 made little sense for Congress to have taken this action if it believed that the state secrets
17 privilege was unavailable to the Government in the first instance because FISA displaced it.

18
19
20
21 **E. Judicial Authority Supports the Conclusion that Subsection 1806(f) Does**
22 **Not Displace the State Secrets Privilege or Permit Discovery Into**
23 **Whether Alleged Surveillance Has Occurred.**

24 Judicial authority also weighs against plaintiffs’ theory that FISA displaces the state
25 secrets privilege and can be used to seek discovery into whether alleged electronic surveillance

26 ³⁶ *Reynolds* itself contrasted the use of the state secrets privilege in civil litigation with “cases in the
27 criminal field, where it has been held that the Government can invoke its evidentiary privileges only at the price of
28 letting the defendant go free.” *See Reynolds*, 345 U.S. at 12. But *Reynolds* rejected this very approach in civil
litigation where the privilege applies, noting that the rationale in criminal cases “has no application in a civil forum
where the Government is not the moving party, but is a defendant only on terms to which it has consented.” *Id.*

1 has occurred. Subsection 1806(f) has been consistently applied only where the Government has
2 sought to use evidence related to surveillance in judicial proceedings and invoked 1806(f) to
3 protect against the unauthorized disclosure of FISA applications, orders and related
4 information.³⁷ Courts have recognized that, outside of circumstances where the use of
5 surveillance evidence is at issue, the Government is not required to give notice that alleged
6 electronic surveillance has occurred. For example, in rejecting a Fourth Amendment challenge
7 to provisions of the FISA, as amended by the Patriot Act, Pub.L.No. 107-56, 115 Stat. 272 (Oct.
8 26, 2001), the Foreign Intelligence Surveillance Court of Review noted that “FISA does not
9 require notice to a person whose communications were intercepted unless the government
10 ‘intends to enter into evidence or otherwise use or disclose’ such communications in a trial or
11 other enumerated official proceedings.” *In re Sealed Case*, 310 F.3d 717, 741 (For. Intel. Surv.
12 Rev. 2002). “[W]here such evidence is not ultimately going to be used for law enforcement,
13 Congress observed that ‘[t]he need to preserve secrecy for sensitive counterintelligence sources
14 and methods justifies elimination of the notice requirement’” that applies to Title III surveillance
15 authority. *Id.* (quoting Sen. Rept. 95-701 at 12, 1978 U.S.C.C.A.N 3980).

16
17
18 Two related cases in the Ninth Circuit and D.C. Circuit further indicate that the FISA is
19 not a tool that permits discovery into whether surveillance has occurred. In *United States v.*
20 *Hamide*, 914 F.2d 1147 (9th Cir. 1990), which involved a deportation action against eight aliens
21 before the Immigration and Naturalization Service, the Government had acknowledged that it
22 had undertaken FISA surveillance on some of the aliens in response to a motion under 18 U.S.C.
23

24
25 ³⁷ See, e.g., *United States v. Ott*, 827 F.2d 473, 474 (9th Cir. 1987) (subsection 1806(f) applied where
26 Government informed defendant it intended to introduce certain evidence obtained from FISA surveillance); see
27 also *United States v. Damrah*, 412 F.3d 618, 622 (6th Cir. 2005) (subsection 1806(f) applied where Government
28 admitted audio tapes of FISA surveillance during trial); *United States v. Johnson*, 952 F.2d 565, 571-73 (1st Cir.
1992) (same); *United States v. Duggan*, 743 F.2d 59 (2nd Cir. 1984) (Government provided notice of use of
surveillance evidence under subsection 1806(c) and subsection 1806(f) applied in response to motion to suppress).

1 § 3504. Subsection 1806(f) of the FISA was then invoked by the Attorney General to determine
 2 the lawfulness of that surveillance, which was found to be lawful. *See Hamide*, 914 F.2d at
 3 1148-50.

4 In contrast, in a separate lawsuit seeking declaratory and injunctive relief brought by the
 5 same individuals whose surveillance was at issue in *Hamide*, the D.C. Circuit recognized that, as
 6 to those plaintiffs whom the Government had not previously acknowledged surveillance in the
 7 *Hamide* matter, the Government was not required by the FISA to reveal the existence of
 8 surveillance. *ACLU Foundation v. Barr*, 952 F.2d 457 (D.C. Cir. 1991).³⁸ The court in *Barr*
 9 noted that “if the government is forced to admit or deny such allegations, in an answer to the
 10 complaint or otherwise, it will have disclosed sensitive information that may compromise critical
 11 foreign intelligence activities.” *Id.* at 469; *see also id.* n.13 (“The government makes the point,
 12 with which we agree, that under FISA it has no duty to reveal ongoing foreign intelligence
 13 surveillance.”). The court in *Barr* declined to uphold dismissal for failure to state a claim under
 14 Rule 12(b)(6), but held that, in a Rule 56 summary judgment proceeding, “the government would
 15 need only assert that plaintiffs do not have sufficient evidence to carry their burden of proving
 16 ongoing surveillance” *Barr*, 952 F.2d at 469. If the plaintiffs were unable to come forward
 17 with such evidence, summary judgment would be entered for the Government . *Id.* This is the
 18 precise scenario of this case: on summary judgment, the Government has asserted the state
 19 secrets privilege, which forecloses plaintiffs’ ability to establish their standing, and FISA is not a
 20 mechanism to defeat that motion.³⁹

24 _____
 25 ³⁸ As to those plaintiffs whose surveillance had been acknowledged, the court in *Barr* held that the Ninth
 26 Circuit’s decision in *Hamide* adjudicating the lawfulness of the FISA surveillance under subsection 1806(f)
 foreclosed any further claim. *Barr*, 952 F.2d at 464-65.

27 ³⁹ The court in *Barr* also observed that subsection 1806(f) would protect against the disclosure of
 28 surveillance materials even if a plaintiff could defeat summary judgment, *see Barr*, 952 F.2d at 469, but rejected the
 (cont’d)

1 Other than Judge Walker’s now-vacated judgment, plaintiffs cannot cite a single instance
2 in which subsection 1806(f) was relied upon to displace the privilege, let alone permit discovery
3 into alleged surveillance. Where plaintiffs must establish that Congress clearly and directly
4 intended to displace the privilege through the FISA, nothing in the statute, legislative history, or
5 case law supports that conclusion.

6
7 **F. Application of Subsection 1806(f) in this Case Would Itself Risk Disclosure of
8 Properly Protected Information.**

9 A final reason that subsection 1806(f) should not be construed to preempt the state secrets
10 privilege warrants particular emphasis: any attempt to do so would itself risk disclosures that
11 could result in exceptional damage to national security. Far from serving the same purpose as
12 the state secrets privilege, application of subsection 1806(f) in this case would risk the very
13 harms the privilege is intended to prevent. That is because, unlike in circumstances where
14 subsection 1806(f) properly applies—where the existence of surveillance is acknowledged and
15 the use of evidence against an aggrieved person is at issue—here the Government seeks to
16 protect the very question of whether plaintiffs are aggrieved, and whether certain electronic
17 surveillance activities have occurred.

18
19 Any effort to establish whether plaintiffs are in fact aggrieved and proceed on the merits
20 under subsection 1806(f) would inherently risk or require the disclosure of properly privileged
21 information—notwithstanding the *in camera* and *ex parte* procedures of that provision. If none
22 of the plaintiffs are aggrieved parties, the case could not proceed, but such a holding would
23 reveal information that is properly protected by the state secrets privilege—namely, that certain

notion these procedures were themselves the mechanism for defeating summary judgment or that they displaced the Government’s right to not to reveal whether surveillance had occurred. The court observed that “[s]uits for injunctions against ongoing FISA surveillance . . . are not motions to ‘discover or obtain’ materials relating to or derived from FISA surveillance,” and that subsection 1806(f) does not itself “create or recognize a cause of action for an injunction or for a declaratory judgment, but the scheme it sets up makes clear that nothing in the FISA can be read to create such a cause of action.” *Id.* at 470.

1 individuals were not subject to alleged surveillance. Conversely, if the case did proceed, it could
2 do so only as to an aggrieved party, which would confirm that a particular plaintiff *was* subject to
3 surveillance. Similarly, assuming there were an aggrieved party in this case, at some point the
4 Court would have to grant or deny relief. If an aggrieved plaintiff were to lose on the merits,
5 only that plaintiff could appeal—and that fact would be disclosed or become apparent in further
6 proceedings. Likewise, if the government were to lose on the merits under subsection 1806(f) as
7 to a particular aggrieved plaintiff, that too would either have to be disclosed or would become
8 apparent upon any appeal. Also, in a case that specifically concerns whether certain alleged
9 activities even occurred, any further proceedings on the merits would not only establish that a
10 plaintiff was aggrieved, but that an alleged activity existed to some extent, thus indirectly and
11 inherently revealing information that the Government seeks to protect through the privilege
12 assertion.
13

14
15 Accordingly, as a replacement for the state secrets privilege, application of the
16 procedures in subsection 1806(f) would be inimical to the proper application of the privilege. As
17 outlined above, the privilege addresses circumstances where risk of disclosure of information in
18 litigation reasonably could be expected to cause damage national security. *See Jeppesen*, 614 F.
19 3d at 1079; *Kasza*, 133 F.3d at 1167-68.⁴⁰ Indeed, *in camera*, *ex parte* review is not required
20 under the privilege, as “examination of the evidence, even by the judge alone, in chambers,” may
21 present too great a risk to national security. *Reynolds*, 345 U.S. at 10. Moreover, an assertion of
22 privilege does not lead to or result in a ruling on the merits based on the consideration of the
23 privileged evidence. Rather, when upheld, the privilege is absolute and the privileged
24

25
26
27 ⁴⁰ *See also Al-Haramain v. Bush*, 507 F.3d at 1203 (“[w]e acknowledge the need to defer to the Executive
28 on matters of foreign policy and national security and surely cannot legitimately find ourselves second guessing the Executive in this arena”).

1 information at issue is excluded from the case regardless of any showing of need for that
2 information. *Kasza*, 133 F.3d at 1166 (citing *Reynolds*, 345 U.S. at 11). Upon the exclusion of
3 privileged information, the case must either proceed without that information or be dismissed if
4 either the plaintiff cannot prove the *prima facie* elements of her claim without the privileged
5 evidence, or the privilege deprives the defendant of information that would otherwise give the
6 defendant a valid defense to the claim, or the risk of disclosure of the privileged evidence is so
7 great that the protection of national security considerations warrants dismissal. *See Jeppesen*,
8 614 F.3d at 1083; *Kasza*, 133 F.3d at 1166.

10 Thus, subsection 1806(f) and the state secrets privilege apply to entirely different
11 circumstances. Where the very existence of alleged surveillance activities is at issue, along with
12 whether plaintiffs have been subject to electronic surveillance, attempting to use subsection
13 1806(f) procedures out of their appropriate role would risk the very harms to national security
14 that the state secrets privilege is designed to prevent. Courts are not required to “play with fire
15 and chance further disclosure— inadvertent, mistaken, or even intentional—that would defeat
16 the very purpose for which the privilege exists.” *Sterling v. Tenet*, 416 F.3d 338, 344 (4th Cir.
17 2005), *see also Tenet*, 544 U.S. at 11 (rejecting Ninth Circuit’s holding that “*in camera*
18 proceedings” were available to adjudicate underlying claims because of the risk of jeopardizing
19 state secrets). Any finding that the FISA displaces the Executive branch’s ability to protect
20 highly sensitive intelligence sources and methods in this litigation would be wholly in error.

23 CONCLUSION

24 For the foregoing reasons, the Government Defendants Motion to Dismiss and for
25 Summary Judgment should be granted; plaintiffs’ motion for partial summary judgment should
26 be denied; and plaintiffs’ complaint should be dismissed.

1 September 12, 2012

Respectfully Submitted,

2 STUART F. DELERY
